Salvator dal Negro's apparatus. Jacobi's apparatus. Davidson's apparatus. Devenport's devices. Capt. Taylor's electro-magnetic engine. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, NO. 359. Price 10 cents. To be had at this office and from all newsdealers.

NEW SOUTH WALES.

To Iron and Steel Bridge Builders.

The Agent General for New South Wales invites Designs and Tenders from Iron and Steel Bridge Builders of experience for a Steel Bridge to carry a double line of Railway across the River Hawkesbury, near Sydney. New South Wales.

The distance between the Abutments of the Bridge is about 2,300 feet. The Bridge is to be a clear height of 40 feet above high water. The River is an average depth of about 50 feet, and the foundations will have to be carried down to about 120 feet below bed of the river.

The terms and conditions, with a section of the river, and plan of site, can be obtained from the Agent General on payment of one guinea, to be sent with the application, which should be made in writing and accompanied by a list of works of similar character previously executed by the parties applying.

The Designs and the Tenders are to be delivered to the Agent General for New South Wales at the undermentioned office on or before the first day of June, 1885.

Agent General for New South Wales, 5 Westminster Chambers, S. W., 5th February, 1885.

London, England.

Treating of superficial, stratified, and unstratified ore deposits; the various classes of mineral veins; the theories of vein formation, and the sources of the metallic solutions which have formed deposits of ores. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 223. Price 10 cents. To be had at this office and from all newsdealers.

FOREIGN PATENTS. Their Cost Reduced.

The expenses attending the procuring of patents in most foreign countries having been considerably reduced the obstacle of cost is no longer in the way of a large proportion of our inventors patenting their inventions abroad.

CANADA.—The cost of a patent in Canada is even

less than the cost of a United States patent, and the former includes the Provinces of Ontario, Quebec, New Brunswick, Mova Scotia, British Columbia, and Mani-

The number of our patentees who avail themselves of the cheap and easymethod now offered for obtaining patents in Canada is very large, and is steadily increas-

ENGLAND.—The new English law, which went into torce on Jan. 1st, enables parties to secure patents in Great Britain on very moderate terms. A British patent includes England, Scotland, Wales, Ireland and the Channel Islands. Great Britain is the acknowledged financial and commercial center of the world, and her goods are sent to every quarter of the globe. A good invention is likely to realize as much for the patentee ${\bf r}$ in England as his United States patent produces for him at home, and the small cost now renders it possible for almost every patentee in this country to secure a patent in Great Britain, where his rights are as well protected as in the United States.

OTHER COUNTRIES.—Patents are also obtained on very reasonable terms in France, Belgium, Germany, Austria, Russia, Italy, Spain (the latter includes Cuba and all the other Spanish Colonies), Brazil, British India,

Australia, and the other British Colonies.

An experience of FORTY years has enabled the publishers of THE SCIENTIFIC AMERICAN to establish competent and trustworthy agencies in all the principal foreign countries, and it has always been their aim to have the business of their clients promptly and properly done and their interests faithfully guarded.

A pamphlet containing a synopsis of the patent laws of all countries, including the cost for each, and other information useful to persons contemplating the procuring of patents abroad, may be had on application to this office

MUNN & (1). Editors and Proprietors of THE SCI-ENTIFIC AMERICAN, cordially invite all persons desiring any information relative to patents, or the registry of trade-marks, in this country or abroad, to call at their offices, 361 Broadway. Examination of inventions, consultation, and advice free. Inquiries by mail promptly answered.
