MUNN & CO., Solicitors of Patents, 361 Broadway, Yew York, BRANCH OFFICE.—Corner of F and 7th Streets. Washington, D. C.

Remington Standard Type-Writer.

The mere mention of the names of those prominent in all circles using the Standard Type-writer with ever-increasing satisfaction would be the best advertisement we could publish; but the list would include thousands of names in this and other countries, and is much too long to print. It embraces

All the Government Departments at Washington (several hundred Type-writers). All the Departments of the Canadian Government.

Most or all of the Governments of the several States.

Departments of the British and other foreign Governments.

The Bradstreet Company, Commercial Agency (about five hundred machines).

R. G. Dun & Company, Commercial Agency (about five hundred machines).

The large Railroad and Telegraph Companies.

Business houses in all lines (ask them how they like the Type-writer).

The prominent lawyers, clergymen, stenographers (almost universally).

Authors, professors, and scientists (including such names as Prof. Richard A. Proctor, Sir Richard Brudenell Carter, F.R.S., and George Bancroft, the historian.

The Standard Type-writer embraces not only the fundamental principles, but the latest improvements in writing machines. Address

WYCKOFF, SEAMANS & BENEDICT,

281 and 283 Broadway, also 339 Broadway, New York. Represented in the principal cities of the world.

FOREIGN PATENTS. Their Cost Reduced.

The expenses attending the procuring of patents in most foreign countries having been considerably reduced, the obstacle of cost is no longer in the way of a large proportion of our inventors patenting their inven-

CANADA.—The cost of a patent in Canada is even less than the cost of a United States patent, and the former includes the Provinces of Ontario, Quebec, New Brunswick, Mova Scotia, British Columbia, and Manitoba.

The number of our patentees who avail themselves of the cheap and easy method now offered for obtaining patents in Canada is very large, and is steadily increas-

ENGLAND.-The new English law, which went into force on Jan. 1st. enables parties to secure patents in Great Britain on very moderate terms. A British pa-tentincludes England, Scotland, Wales, Ireland and the Channel Islands. Great Britain is the acknowledged financial and commercial center of the world, and her goods are sent to every quarter of the globe. A good invention is likely to realize as much for the patentee ir. England as his United States patent produces for him at home, and the small cost now renders it possible The Seibert Cylinder Oil Cup Co., | for almost every patentee in this country to secure a patent in Great Britain, where his rights are as well protected as in the United States. for almost every patentee in this country to secure a pa-

OTHER COUNTRIES.—Patents are also obtain on very reasonable terms in France, Belgium, Germany Austria, Russia, Italy, Spain (the latter includes Cuba and all the other Spanish Colonies), Brazil, British India, Australia, and the other British Colonies.

An experience of FORTY years has enabled the publishers of The Scientific American to establish competent and trustworthy agencies in all the principal foreign countries, and it has always been their aim to have the business of their clients promptly and properly done and their interests faithfully guarded.

A pamphlet containing a synopsis of the patent laws of all count ries, including the cost for each, and othe information useful to persons contemplating the pro-curing of patents abroad, may be had on application to

MUNN & CO., Editors and Proprietors of THE SCI-ENTIFIC AMERICAN, cordially invite all persons desiring any information relative to patents, or the registry of trade-marks, in this country or abroad, to call at their offices, 361 Broadway. Examination of inventions, consultation, and advice free. Inquiries by mail promptly
