

The Most Useful Practical Book Ever Offered to American Machinists.

Rose's Complete Practical Machinist.

13th Thoroughly Revised Edition.
JUST READY.

The Complete Practical Machinist: Embracing Lathe Work, Vise Work, Drills and Drilling, Taps and Dies, Hardening and Tempering, the Making and Use of Tools, Tool Grinding, Marking out Work, etc. By Joshua Rose. Illustrated by 356 Engravings. Thirteenth edition, thoroughly revised and in great part rewritten. In one vol. 2mo, 438 pages, price \$2.50. By mail, free of postage, to any address in the world.

Contents.—Chapter I. Cutting Tools for Lathes and Planing Machines. II. Cutting Speed and Feed. III. Boring Tools for Lathe Work. IV. Screw Cutting Tools. V. Lathe-Dogs, Carriers or Drivers. VI. Turning Eccentrics. VII. Hand Turning. VIII. Drilling in the Lathe. IX. Boring Bars. X. Slotting Machine Tools. XI. Twist Drills. XII. Tool Steel. XIII. Taps and Dies. XIV. Vise Work. Tools. XV. Fitting Connecting Rods. XVI. Milling Machines and Milling Tools. XVII. Grindstone and Tool Grinding. XVIII. Lining or Marking out Work. XIX. To Calculate the Speed of Wheels, Pulleys, etc. XX. How to Set a Slide Valve. XXI. Pumps. Index.

The above or any of our Books sent by mail free of postage at the publication price to any address in the world.

Our large Catalogue of Practical and Scientific Books, 96 pages, 800, and our other Catalogues and Circulars, the whole covering every branch of Science Applied to the Arts, sent free and free of postage to any one in any part of the world who will furnish his address.

PATENTS.

MESSRS. MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had forty years' experience, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very reasonable terms.

A pamphlet sent free of charge, on application, containing full information about Patents and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.

We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world.

MUNN & CO., Solicitors of Patents,

PERFORATED PAPER.

The "Standard" Toilet Paper.

Printed paper, or that containing injurious chemicals incident to the ordinary process of manufacture, is a direct cause of hemorrhoids. Physicians warn their patients of its dangerous character.

"THE STANDARD"

is not a medicated paper, but is entirely free from any deleterious substance. The division into sheets by perforations secures an economy through avoidance of litter and waste unattainable in the Unperforated Roll first made by us, while the rapid dissolution of the paper in water commends it especially for town and city in preventing loss of health, due to impure air from stoppage of pipes and drains, with accompanying Physicians' and Plumbers' bills.

TWO 1,000 SHEET ROLLS

And Nickel Fixture Free anywhere in the U. S., delivered.

PERFORATED WRAPPING TOILET WAXED, ANTI-RUST & CARBOLATED PAPERS.

THE ONLY

MEDICATED TOILET PAPER EVER MANUFACTURED.

This article is already attaining a standing as a curative and healing application, superior to that of any other remedy. While this is largely due to the use of the remedial agents, most highly esteemed by the profession, it is obvious that in their successful application to Toilet Paper, the annoyance of applying a remedy is obviated, hence regular application, hitherto difficult to enforce, is assured, and to this we attribute the rapid stride to public favor made by this paper. Another feature of unquestionable value is the evidence of medication in its appearance. It is well known that the so-called medicated paper heretofore manufactured bears no evidence of medication, other than the claim to that effect upon the wrapper. As the demand comes from all countries, every roll of our Medicated Paper is securely wrapped in tinfoil, as a protection against deterioration.

Price per Roll, 1,000 Sheets, 50 Cts.
Nickel Fixture, 30 "
Sample Packet, by mail, 10 "

SPEAKING TELEPHONES.

THE AMERICAN BELL TELEPHONE COMPANY,
W. H. FORBES, W. R. DRIVER, THO. N. VAIL,
President, Treasurer, Gen. Manager.

Alexander Graham Bell's patent of March 7, 1876, owned by this company, covers every form of apparatus, including Microphones or Carbon Telephones, in which the voice of the speaker causes electric undulations corresponding to the words spoken, and which undulations produce similar articulate sounds at the receiver. The Commissioner of Patents and the U. S. Circuit Court have decided this to be the true meaning of his claim; the validity of the patent has been sustained in the Circuit on final hearing in a contested case, and many injunctions and final decrees have been obtained on them. This company also owns and controls all the other telephonic inventions of Bell, Edison, Berliner, Gray, Blake, Phelps, Watson, and others.

(Descriptive catalogues forwarded on application.)
Telephones for Private Line, Club, and Social systems can be procured directly or through the authorized agents of the company.

All telephones obtained except from this company, or its authorized licensees, are infringements, and the makers, sellers, and users will be proceeded against. Information furnished upon application.

THE LAWSON NON-EXPLOSIVE BOILER
This is the only steam boiler ever devised in strict compliance with the demands of natural laws. It gives complete immunity against explosions, delivers dry steam, prevents all incrustation and deposit on the bottom plates, affords safety with high pressure, and secures great economy. The invention is applicable to every style of boiler, and can be readily applied to new or old boilers. Licenses granted on liberal terms to manufacturers. Send for description.

LAWSON NON-EXPLOSIVE BOILER CO.,
155 and 157 Broadway, N. Y.

FOREIGN PATENTS.

Their Cost Reduced.

The expenses attending the procuring of patents in most foreign countries having been considerably reduced, the obstacle of cost is no longer in the way of a large proportion of our inventors patenting their inventions abroad.

CANADA.—The cost of a patent in Canada is even less than the cost of a United States patent, and the former includes the Provinces of Ontario, Quebec, New Brunswick, Nova Scotia, British Columbia, and Manitoba.

The number of our patentees who avail themselves of the cheap and easy method now offered for obtaining patents in Canada is very large, and is steadily increasing.

ENGLAND.—The new English law, which went into force on Jan. 1st, enables parties to secure patents in Great Britain on very moderate terms. A British patent includes England, Scotland, Wales, Ireland, and the Channel Islands. Great Britain is the acknowledged financial and commercial center of the world, and her goods are sent to every quarter of the globe. A good invention is likely to realize as much for the patentee in England as his United States patent produces for him at home, and the small cost now renders it possible for almost every patentee in this country to secure a patent in Great Britain, where his rights are as well protected as in the United States.

OTHER COUNTRIES.—Patents are also obtained on very reasonable terms in France, Belgium, Germany, Austria, Russia, Italy, Spain (the latter includes Cuba and all the other Spanish Colonies), Brazil, British India, Australia, and the other British Colonies.

An experience of forty years has enabled the publishers of THE SCIENTIFIC AMERICAN to establish competent and trustworthy agencies in all the principal foreign countries, and it has always been their aim to have the business of their clients promptly and properly done and their interests faithfully guarded.

A pamphlet containing a synopsis of the patent laws of all countries, including the cost for each, and other information useful to persons contemplating the procuring of patents abroad, may be had on application to this office.

MUNN & CO., Editors and Proprietors of THE SCIENTIFIC AMERICAN, cordially invite all persons desiring any information relative to patents, or the registry of trade-marks, in this country or abroad, to call at their offices, 361 Broadway. Examination of inventions, consultation, and advice free. Inquiries by mail promptly answered.

Barnes' Patent Foot-Power Machinery.

Complete Outfits for Actual Workshop Business. Lathes for Wood or Metal. Circular Saws, Scroll Saws, Formers, Mortisers, Tenoners, etc., etc.

CONTRACTORS AND BUILDERS.

We call the attention of contractors and builders to the fact that they can save themselves money and facilitate their business by using an outfit of Barnes' Hand and Foot Power Machinery.

Every builder is aware of the advantage of being near a planing mill where he can have planing and sawing done at will. This is not always possible, and the builder is at great disadvantage when obliged to carry his work considerable distance, and be subjected to the usual delays, awaiting his turn, etc., etc., besides the expense of handling and drawing the lumber to and from the mill.

We have in this outfit no machine for planing lumber, and can offer no relief in that line. We have, however, sawing, mortising and tenoning, forming dados, and turning. For the greater portion of their ripping in mill within five minutes' drive from their sawing, mortising, tenoning, cutting stuff tried, but have been in use during the past

the builder to easily move them from his of construction. Read the following letters

CLARENCE F. LEE, carpenter and builder, Morristown, N. J., says: "I have had one of your Hand Circular Rip-Saws for about three months, and am much pleased with it. Have done the ripping for 15 houses in that time which is over forty miles through inch boards. Have ripped as high as 3-inch plank. The table is also good for rabbeting; have rabbeted all jams and sawed all drips for 200 windows."

ALEX. SHIELDS, Lima, Ohio, Sept., 1882, says: "A few days since we had some 150 small drawers to make for drug store; the steam power mill wanted fifty cents each for making them. With my foot power machinery I made them, and saved \$25.00 above good wages on the job."

If desired, these machines will be sold on Trial. The purchaser can have ample time to test them in his own shop and on the work he wishes them to do.
