Here is something which will not disappoint you. It will cut iron as other saws cut wood. One blade, without filing, will saw off a rod of half-inch iron one hundred times. The blade costs five cents. Files to do the same work would cost ten times as much.
Men in every calling will have them as soon as they know about it. We guarantee full satisfaction in all cases. One nickel-plated steel frame and twelve saws sent by mail prepaid on receipt of \$1.50. Hardware dealers will furnish them at the same price.
