#### JENKINS BROS. VALVES.

THE ENDORSEMENT OF FIRST-CLASS ENGINEERS AND MECHANICS THROUGHOUT THE COUNTRY has fully demonstrated these valves to possess the following advantages over all other valves now in use:

1. A perfectly tight valve under any and all pressures of steam, oils, or gases.

2. Sand or grit of any kind will not injure the seat.

3. You do not have to take them off to repair them.

4. They can be repaired by any mechanic in a few minutes.

5. The elasticity of the Disc allows it to adapt itself to an imperfect surface.

In Valves having ground or metal seats, should sand or grit get upon the seat, it is impossible to make them tight, except by regrinding, which is expensive if done by hand, and if done by machinesoon wears out the valve, and in most cases they have to be disconnected from the plices, often costing more than a new valve. The Jenkins Discs sed in these valves are manufactured under our 1850 patent, and will stand any pressure of steam, oils, or acids INNINIS RROS. J. Lohn S. N. Y.: 105 Milk St. Rastant: 12 So. Enarth St. Polis : 54 Desphers St. Chicago. JENKINS BROS., 71 John St., N. Y.; 105 Milk St., Boston; 13 So. Fourth St., Phila.; 54 Dearborn St., Chicago.

# Scientific American Building Edition.

THE SCIENTIFIC AMERICAN ARCHI-TECTS' AND BUILDERS' EDITION is issued monthly. \$2.50 a year. Singlecopies. 25 cents. Forty large quarto pages, equal to about two hundred ordinary book pages; forming, practically, a large and splendid Magazine of Architecture, richly adorned with elegant plates in colors, and with fine engravings; illustrating the most interesting examples of modern Architectural Construction and allied subjects.

A special feature is the presentation in each number of a variety of the latest and best plans for private residences, city and country, including those of very moderate cost as well as the more expensive. Drawings in perspective and in color are given, together with full Plans, Specifications, Costs, Bills of Estimate, and Sheets of Details.

Architects, Builders, and Owners will find this work valuable in furnishing fresh and usef mg ons. All who contemplate building or improving homes or erecting structures of any kind, have before them in this work an almost endless series of the latest and best examples from which to make selections, thus saving time and money.

Many other subjects, including Sewerage, Piping, Lighting, Warming, Ventilating, Decorating, Laying Out of Grounds, etc., are illustrated. An extensive Compendium of Manufacturers' Announcements is also given, in which the most reliable and approved Building Materials, Goods, Machines, Tools, and Appliances are described and illustrated. with addresses of the makers, etc.

The fullness, richness, cheapness, and convenience of this work have won for it the Largest Circulation of any Architectural publication in the world. Sold by all newsdealers.

MUNN & CO., Publishers, 361 Broadway, New York.
