FOREIGN PATENTS. Their Cost Reduced.

The expenses attending the procuring of patents in most foreign countries having been considerably reduced the obstacle of cost is no longer in the way of a large proportion of our inventors patenting their inventions abroad.

CANADA.—The cost of a patent in Canada is even less than the cost of a United States patent, and the former includes the Provinces of Ontario, Quebec, New Brunswick, Nova Scotia, British Columbia, and Manitoba.

The number of our patentees who avail themselves of the cheap and easy method now offered for obtaining patents in Canada is very large, and is steadily increasing.

ENGLAND.—The new English law, which went into force on Jan. 1st, 1885, enables parties to secure patents in Great Britain on very moderate terms. A British patent includes England, Scotland, Wales, Ireland and the Channel Islands. Great Britain is the acknowledged financial and commercial center of the world, and her goods are sent to every quarter of the globe. A good invention is likely to realize as much for the patentee in England as his United States patent produces for him at home, and the small cost now renders it possible for almost every patentee in this country to secure a patent in Great Britain, where his rights are as well protected as in the United States.

OTHER COUNTRIES.—Patents are also obtained on very reasonable terms in France, Belgium, Germany, Austria, Russia, Italy, Spain (the latter includes Cuba and all the other Spanish Colonies), Brazil, British India, Australia, and the other British Colonies.

An experience of FORTY years has enabled the publishers of THE SCIENTIFIC AMERICAN to establish competent and trustworthy agencies in all the principal foreign countries, and it has always been their aim to have the business of their clients promptly and properly done and their interests faithfully guarded.

A pamphlet containing a synopsis of the patent laws of all countries, including the cost for each, and other information useful to persons contemplating the procuring of patents abroad, may be had on application to this office.

MUNN & CO., Editors and Proprietors of THE SCIENTIFIC AMERICAN, cordially invite all persons desiring any information relative to patents, or the registry of trade-marks, in this country or abroad, to call at their offices, 361 Broadway. Examination of inventions, consultation, and advice free. Inquiries by mail promptly answered.

Address, MUNN & CO., Publishers and Patent Solicitors, 361 Broadway, New York. BRANCH OFFICES: No. 622 and 624 F Street, Pacific Building, near 7th Street, Washington, D. C.

APPLETON & CO., Publishers, 1, 3, & 5 Bond Street, New York.

BALL UNIPOLAR System of Electric Lighting is the cheapest and best for Arc or Incandescent. For information, guarantees, and estimates address NOVELTY ELECTRIC CO., 5th & Locust Sts., Philadelphia.

Magnolia Anti-Friction Metal.

The following letter was received from the Roper Air Engine Works of Hill & Welsh, Manufacturers and Builders of the Improved Roper Air Engine and Elevator Machinery, 36 Pearl Street, New York, Jan. 29, 1887. CHARLES B. MILLER, Esq., New York. DEAR SIR: We have used every kind of metal known, but fail to find any that will stand the work at High and Low Speed that your Magnolia Anti-Friction Metal has shown. We have put it into the Fans of quite a number of our Root Foundry Blowers, and it has given perfect satisfaction. We are using it to our satisfaction in our "Air Engines and Elevators." The waste in melting is very small and we cheerfully recommend its use, and any one desiring to see it working we will be pleased to show them. Your very truly, HILL & WELSH. Address for further information CHARLES B. MILLER, 2 1/2 Coenties Slip, N. Y. City.

WELL TOOLS, DIAMOND DRILLS AND LIGHTNING HYDRAULIC WELLS, BOOK FREE, 25c. for mailing it. American Well Works, Aurora, Ill. Address: The American Writing Machine Co., Hartford, Conn., New York Office, 237 Broadway.

New Catalogue of Valuable Papers contained in SCIENTIFIC AMERICAN SUPPLEMENT, sent free of charge to any address. MUNN & CO., 361 Broadway, N. Y.

Patents in Brazil and Mexico.

Until quite recently, considerable difficulty has been experienced by inventors in obtaining patents in both Brazil and Mexico. The requirements of the officials of these countries caused much bother and delay, and the expenses of a patent corresponded therewith.

But there no longer exists that trouble and delay in obtaining patents in either country. The proprietors of this paper have perfected arrangements with resident professional gentlemen in both countries, Brazil and Mexico, which enables them to obtain patents within reasonable time and at reasonable cost. These two countries embrace an enormous area of territory, and makers of improved machinery and implements are now finding a market for their products in those countries.

The cost need no longer deter inventors from obtaining patents in either Brazil or Mexico. For further information address MUNN & CO., Proprietors SCIENTIFIC AMERICAN, 361 Broadway, New York.

CURE FOR THE DEAF
