JENKINS BROTHERS VALVES. Stand at the head, are specified by architects, used in the principal public buildings, and always referred to by steam fitters when the best is called for. The Valves contain all the late improvements—using the genuine Jenkins Disc. Don't be deceived into buying a cheap and inferior valve, using a worthless disc, but insist on having Jenkins Bros. Valves, containing a Jenkins Disc (the result of twenty years' experience in the manufacture of this class of goods), and the only disc that will stand high pressure of steam.
