

Notes & Queries

HINTS TO CORRESPONDENTS.

Names and Address must accompany all letters, or no attention will be paid thereto. This is for our information, and not for publication.

References to former articles or answers should give date of paper and page or number of question. **Inquiries** not answered in reasonable time should be repeated; correspondents will bear in mind that some answers require not a little research, and, though we endeavor to reply to all, either by letter or in this department, each must take his turn.

Special Written Information on matters of personal rather than general interest cannot be expected without remuneration.

Scientific American Supplements referred to may be had at the office. Price 10 cents each.

Books referred to promptly supplied on receipt of price.

Minerals sent for examination should be distinctly marked or labeled.

(1) E. D. and many others.—Any body, as a sphere of metal, that is impervious to water, and hollow, so as to be but little more than the specific gravity of water at the surface, will find its equilibrium at considerable depths in the sea. Water is but slightly compressible, and although there is immense pressure at great depths, the specific gravity is but slightly raised; hence all objects that are slightly heavier than water sink to the bottom of the sea at great depths. Aluminum, one of the lightest metals, will quickly find the bottom of the deepest seas.

(2) D. M. G. asks for a preparation to be used as the — hand grenades, to extinguish fires. Wish to use ordinary quart glass flasks, and would like the solution not to freeze in ordinary temperatures in our State (Michigan). A. A solution of common salt or sulphate of soda in water, making a strong brine, forms a good home-made fire extinguisher, and such solutions do not freeze easily. By adding lime dust and sulphuric acid, and corking tightly, carbonic acid is generated under pressure, but this gas easily escapes if not most securely sealed. We cannot specify the composition of the various patented solutions, for which reference must be made to the patents. See SCIENTIFIC AMERICAN SUPPLEMENT, Nos. 358 and 535, for valuable articles on this subject.

(3) G. K. writes: I have a pair of buck horns I wish to mount; what should I use to whiten and polish the skull connecting the horns, also what is the best polish for the horns themselves? A. You can bleach the shell by dipping into a solution of hydrogen peroxide or a solution of chloride of lime. To polish the horns, first scrape with a glass or steel scraper to take off any roughness, then grind some pumice stone to powder and with a piece of cloth wetted and dipped in the powder rub them until a smooth face is obtained. Next polish with rotten stone and linseed oil, and finish with dry flour and a piece of clean linen rag.

(4) E. H. D. desires (1) recipes for making purple, green, and black type writer copying inks. A. Use any desired aniline color. Dissolve in 15 parts alcohol, and add 15 parts glycerine. 2. What photographic preparation is most sensitive to artificial light, and how is it compounded? A. Gelatino-bromide of silver is the most sensitive. See SCIENTIFIC AMERICAN SUPPLEMENT, No. 541.

(5) E. E. S. asks how photographs can be mounted on ordinary writing paper, so they will not wrinkle and curl. A. Roll the damp prints up in little bundles with the albumen face outward and allow them to dry spontaneously; each bundle is rolled in a sheet of note or foolscap paper. When the prints are dry they are flattened and placed in a book or portfolio, and are then ready to be trimmed. Make a solution of bleached shellac in alcohol, so that it will be somewhat thick. The print is laid face downward and its back covered with the shellac solution; it is then mounted in the usual way upon the card mount or other thin paper support. Allow no shellac to get on the face of the print, as it cannot be removed without injuring it.

(6) G. A. D. asks: What is a good receipt for making a pure baking powder, and how should it be used? A. One of the simplest and best receipts for a baking powder is the following: Take of powdered cream tartar 30 ounces, bicarbonate of soda 15 ounces, flour 5 ounces. All of the ingredients must be well dried. Mix thoroughly and keep dry.

(7) E. D. F. asks the best stain for red, blue, and wine color, by dipping, for cheap chairs. A. For red boil 1 pound Brazil wood and 1 ounce pearl ash in a gallon of water, and while hot brush over the work until of a proper color. Dissolve 2 ounces alum in 1 quart of water and brush the solution over the work until it dries. For blue, boil 2 ounces of indigo, 2 lb. of wood, and 1 ounce alum in 1 gallon water, brush well over until thoroughly stained. For wine color, ground Brazil wood 1 pound, water 3 quarts, cochineal ½ ounce; boil the Brazil wood with the water for an hour, strain, add the cochineal, boil gently for half an hour, and it will be read for use.

(8) C. R. asks how to remove black heads, better known perhaps as comedones. A. Water in which ammonia has been dissolved frequently will entirely remove the cause of your complaint. The following paste is also largely used. Take of kaolin 4 parts, glycerine 3 parts, acetic acid 2 parts; make into a pomade with the addition of a little ethereal oil. See SUPPLEMENT, No. 542.

(9) J. R. writes: In carbonate potash solution recommended to preserve iron or steel tools from rust, what strength should solution be made? A. One-quarter pound carbonate potassa dissolved in one gallon of boiling water. Dip the work in the hot solution.

(10) F. K. asks (1) how to prepare bird lime. A. Boil the middle bark of the holly 7 or 8 hours in water, drain it, and lay it in heaps in the ground covered with stones for 2 or 3 weeks, till reduced to a mucilage. Beat this in a mortar, wash it in rain water,

and knead until free from extraneous matters. Put it into earthen pots, and in a few days it will be ready for use. An inferior variety is made by boiling linseed oil for some hours until it becomes a viscid paste. 2. Is there any way to make wood elastic? A. No.

(11) E. M. P. asks how he could make a good stain for brick that would be permanent and not wash off with the rain. A. Dissolve 1 ounce of glue in a gallon of water, and when hot put in a piece of alum the size of an egg, ½ pound Venetian red, and 1 pound Spanish brown. Try a little on the bricks; if too light, add more red and brown; if too dark, put in more water.

(12) J. P. H. H. desires a receipt for removing discolorations from granite caused by overhanging trees, something that will restore it to original color, without damaging the stone. A. Try a weak solution of hydrochloric acid or a solution of caustic potash.

(13) G. Z. asks what the difference is between Epsom, Rochelle, and arlsbad salts, also tests for crystalline corrosive sublimate or mercuric chloride and sulphate of iron. A. Epsom salts are magnesium sulphate, Rochelle salts are the tartrate potash and soda, and Carlsbad salts are the solid residue obtained by evaporating the water of that celebrated spring in Austria. Corrosive sublimate should be perfectly soluble in sufficient water and in ether, and should be perfectly volatile. It gives a black precipitate with hydrosulphuric acid insoluble in dilute warm nitric acid. Sulphate of iron gives a pale blue precipitate with ferrocyanide of potash that darkens on exposure to the air. Many other tests could be given.

TO INVENTORS.

An experience of forty years, and the preparation of more than one hundred thousand applications for patents at home and abroad, enable us to understand the laws and practice on both continents, and to possess unequalled facilities for procuring patents everywhere. A synopsis of the patent laws of the United States and all foreign countries may be had on application, and persons contemplating the securing of patents, either at home or abroad, are invited to write to this office for prices, which are low, in accordance with the times and our extensive facilities for conducting the business. Address MUNN & CO., office SCIENTIFIC AMERICAN, 361 Broadway, New York.

INDEX OF INVENTIONS

For which Letters Patent of the United States were Granted

February 28, 1888,

AND EACH BEARING THAT DATE.

[See note at end of list about copies of these patents.]

Acid, apparatus for making sulphurous, C. E. Getchell..... 378,673
Aid, treating sludge, H. De Grouilliers..... 378,774
Air brake, automatic, R. Solano..... 378,628
Air brake, automatic electric, J. F. Carpenter..... 378,637
Amalgamating gold and silver, W. W. Wheeler..... 378,750
Animal trap, Cattell & Summers..... 378,767
Animal trap, E. Herrington..... 378,789
Animal trap, live bait, E. Herrington..... 378,790
Ant trap, M. C. Miller..... 378,799
Are light, L. N. P. Poland..... 378,616
Axle box, car, J. Stephenson..... 378,477
Axle truss, wagon, O. J. Williams..... 378,585
Bag. See Paper bag.
Bags, frame for traveling, W. Roemer..... 378,620
Bags, frame for traveling, F. C. Schmidt..... 378,623
Baling press, Frey & Schwarzbach..... 378,581
Barrels and other vessels, composition for filling up cracks in, Klein & Schattels..... 378,596
Basket, L. A. Brown..... 378,492
Basket bottom, A. W. Beckett..... 378,757
Bath. See Blotter bath.
Battery. See Secondary battery.
Battery vessels, J. Wiest..... 378,484
Batteries, automatic switch for secondary, J. S. Sellon..... 378,527
Bed, couch, J. P. Miller..... 378,708
Bedstead, adjustable crib, C. Morse..... 378,455
Belt, chain, C. W. Hunt..... 378,656
Bicycle support, J. F. Conley..... 378,496
Bin. See Feeding bin.
Blast furnace, E. A. Wheeler..... 378,749
Blast furnace bosh plate, J. Kennedy..... 378,550
Blasting plug, A. Winder..... 378,520
Bleaching by electrolysis, apparatus for, Hermite & Cooper..... 378,651
Block. See Pulley block. Stove block.
Blotter and pen wiper, combined, E. Promis..... 378,719
Blotter bath, H. F. Arnold..... 378,641
Board. See Mould board.
Boat detaching apparatus, R. M. G. Brown..... 378,763
Boats, construction of, A. Olsen..... 378,613
Bolt, W. W. Woodford..... 378,557
Boots and shoes, lasting, J. W. Hatch..... 378,444
Boots and shoes, manufacturing, J. W. Hatch..... 378,445
Bottle, H. Ader..... 378,752
Bottle stopper, F. P. Morhous..... 378,900
Bottle stopper, W. H. Underwood..... 378,743
Bottles, combined spreader and stopper for mucilage and other, W. H. Underwood..... 378,744
Box. See Axle box.
Box, A. T. Linderman..... 378,601
Brick machine, J. C. Anderson..... 378,538
Bridge cables, suspender connection for, G. Lindenthal..... 378,697
Bridges, cable for suspension, G. Lindenthal..... 378,696
Brake. See Air brake.
Brush, Foster & Kennedy..... 378,784
Buckle, J. England..... 378,667
Buckle, A. Prym..... 378,555
Buckle, D. L. Smith..... 378,730
Buckle, turn, C. H. Williams..... 378,534
Buggy top, G. Wiggins..... 378,485
Buildings, construction of, A. Smith..... 378,627
Burner. See Gas burner. Hydrocarbon burner.
Burnisher, W. H. Boles..... 378,760
Bustle, J. Galvin..... 378,489
Camera tripod, W. H. Carpenter..... 378,480
Cane shaving machines, gauge attachment for, L. Janson..... 378,591
Canelstripper, R. P. Sorrels..... 378,735
Car, aisle, J. Stephenson..... 378,480
Car bumper, A. W. Van Dorston..... 378,532
Car coupling, J. Haish..... 378,676
Car coupling, McCray & Shade..... 378,702
Car coupling, W. T. Van Dorn..... 378,813
Car, freight, H. V. Lucas..... 378,602
Car dash trap, tram, J. Stephenson..... 378,476
Car door hanger, tram, J. Stephenson..... 378,474
Car door hanging, tram, J. Stephenson..... 378,472
Car door operator, tram, J. Stephenson..... 378,472
Car lamp house, tram, J. Stephenson..... 378,469
Car, railway, J. A. Brill..... 378,428
Car, railway, H. C. Gross..... 378,675
Car roof, tram, J. Stephenson..... 378,470
Car sash rail, tram, J. Stephenson..... 378,471
Car seat, Brown & Ketchum..... 378,655
Car seat, F. H. Henry..... 378,546
Car spring plates, die for making, N. H. Davis..... 378,773
Car wheel, G. G. Loddell..... 378,844
Car window, tram, J. Stephenson..... 378,473
Cars, draw bar for tram, J. Stephenson..... 378,479
Cars, draw head hook for tram, J. Stephenson..... 378,478
Cars, sliding door for freight, C. H. Dunham..... 378,579
Cards, playing, F. Couch..... 378,497
Carriage door lock, W. P. Fest..... 378,582
Carriagemaker's grooving and boxing tool, J. A. Traut..... 378,854
Carriage tops, adjustable form for setting and building, C. C. Oakes..... 378,457
Carrier. See Store service apparatus carrier.
Case. See Pencil or pin case. Show case.
Cash carrier apparatus, pneumatic, G. B. Kelly..... 378,792
Cash carrier apparatus, pneumatic, W. A. Webber..... 378,538
Caster, furniture, Berkey & Fox..... 378,649
Caster socket, W. P. Tracy..... 378,740
Catarrh remedy, T. S. Greene..... 378,504
Cereals, apparatus for treating, H. R. Robbins, Jr..... 378,806
Chain, drive, B. A. Legr..... 378,598
Chair. See Dental chair. Rail chair.
Check hook, F. C. Kimball..... 378,795
Chopper. See Cotton chopper.
Churn, J. Ahrends..... 378,753
Churn, R. F. Collins..... 378,770
Churn, Gibbs & Harper..... 378,501
Clamp. See Flask clamp.
Clasp. See Corset clasp.
Clip. See Trace attachment clip.
Clock, advertising, G. Holsholt..... 378,589
Clothes pounder, M. A. Nelson..... 378,711
Clutch, friction, Jones & Rogers..... 378,448
Clutch, friction, W. Oesterlein..... 378,803
Coal hod die, E. Barrath..... 378,755
Coal hods, die press for forming, E. Barrath..... 378,754
Combination lock and alarm, R. Baumann..... 378,568
Compasses, correcting device for ships', L. Srieix..... 378,528
Cord or rope, machine for making, C. E. Brainard..... 378,491
Corn dropper, automatic, J. H. Stiggleman..... 378,808
Corn holder, hot, P. J. Godfrey..... 378,503
Corset and bustle, combined, P. Parmenter..... 378,518
Corset clasp, P. Ladin..... 378,691
Corset steel protector, E. Cushing..... 378,576
Cotton chopper, W. H. Harper et al..... 378,443
Cotton picker, J. W. Wallis..... 378,635
Cotton press, P. L. & W. Brady..... 378,570
Coupling. See Car coupling. Hose coupling. Thill coupling. Vehicle coupling.
Cranberries, device for picking, A. J. Disbrow..... 378,775
Culinary vessel, J. P. King..... 378,630
Culinary vessel, H. A. Manning..... 378,700
Cultivator, J. P. Black..... 378,651
Cultivator, N. Roggy..... 378,463
Cuspidor, D. H. Murphy..... 378,610
Dampers, adjusting device for, F. A. Garrett..... 378,671
Dental chair, J. W. Cooper..... 378,433
Die. See Coal hod die.
Digger. See Potato digger. Road digger.
Dish holder, C. H. Latham..... 378,692
Door check, Shaw & Gillfillan..... 378,728
Door closer, G. W. Rodcap..... 378,907
Draught shackle, vehicle, Botsford & Church..... 378,589
Drill. See Mining drill. Multiple drill.
Drilling machine, W. Wattie..... 378,747
Dropper. See Corn dropper.
Eaves trough hanger, H. B. Todd..... 378,530
Egg tester, R. Stuckwisch..... 378,855
Electric distribution, system of, T. Spencer..... 378,737
Electric generator regulator, W. S. Hill..... 378,547
Electric generator, self-exciting, alternate current, O. A. Moses..... 378,456
Electric wires or cables, conduit for, R. S. Waring..... 378,561
Electric wires or cables, test box for underground, R. S. Waring..... 378,560
Electrical conductors, underground conduit for, M. R. Muckle, Jr..... 378,801
Electrical conduits, manhole chamber for underground, M. R. Muckle, Jr..... 378,802
Electrical distribution, system of, Conant & Lathshaw..... 378,432
Electrotype plates, bending, Miller & Dale..... 378,707
Elevator. See Hydraulic or other elevator. Tide water elevator.
Engine. See Steam engine. Traction engine.
Engines, electrical stop motion for steam, R. Ex-lep..... 378,668
Envelope, Potter & Upham..... 378,849
Eraser, cleaner for blackboard, J. S. McClung..... 378,608
Etching on one or both sides, J. Baynes..... 378,423
Evaporating apparatus, P. Laberie..... 378,598
Evaporating liquids, vacuum apparatus for, S. M. Lillie..... 378,843
Evaporator. See Fruit evaporator.
Excavator, B. K. Reed..... 378,720
Extractor. See Stump extractor.
Fabric. See Woven pile fabric.
Fabrics, apparatus for guiding, straightening and evening, S. Arnold..... 378,822
Fan power, J. Carr..... 378,659
Fan, rotary, W. J. Mingle..... 378,710
Fanning mill, J. S. Constant..... 378,772
Fastening device, C. H. Pratt..... 378,461
Feed trough, A. N. Main..... 378,903
Feed water purifier, E. G. T. Colles..... 378,495
Feeding bin and trough, J. T. Woods..... 378,536
Fence, J. F. Bazill..... 378,425
Fence, W. A. Frushour..... 378,832
Fence, W. Kelly..... 378,798
Fence machine, wire and picket, W. Dixon..... 378,777
Fertilizer, P. C. Jensen..... 378,688
Filter, Clarke & Conroy..... 378,431
Firearm, magazine, A. W. Savage..... 378,525
Fire escape, D. H. Sweeney..... 378,529
Fire escape, portable, G. Gavin et al..... 378,833
Fishing reel, P. H. Yauman..... 378,585
Flask clamp, adjustable, A. C. Albee..... 378,640
Flies, device for poisoning, J. B. Kibler..... 378,509
Flour bolting reel, W. Gilleland..... 378,785
Fluid discharge device, C. N. Tyler..... 378,812
Fluid pressure, machine to be driven by, W. P. Canning..... 378,541
Fruit evaporator, E. White..... 378,483
Fur blower, T. J. Sayre..... 378,622
Furnace. See Blast furnace. Hydrocarbon furnace.
Furnace, Huidekoper & Houze..... 378,839
Gauge. See Weather boarding gauge.
Garment stretcher, F. Cadmus..... 378,764
Gas burner, incandescent, J. Mactear..... 378,899
Gas enriching apparatus, J. H. Amies..... 378,418
Gas from gas mains, means for carrying off escaping, J. W. Ellis..... 378,544
Gas lighting apparatus, electric, C. W. Holtzer..... 378,677
Gas, manufacturing water, R. Boeklen..... 378,490
Gate. See Railway gate.
Gate, C. Wilson..... 378,564
Generator. See Electric generator.
Glass, machinery for beveling the edges of plates of, O. C. Hawkes..... 378,680
Glove, D. B. Gunn..... 378,534
Grain binder, F. A. Murdock..... 378,845
Grain binders, knotting device for, W. N. Whiteley..... 378,815
Gravel, etc., box for washing, T. W. Carrio..... 378,785
Groats, separating machine for cleaning, E. Weiss..... 378,562
Gum, machine for manufacturing chewing, W. J. White..... 378,637
Gun, magazine, R. F. Cook..... 378,661
Gun, magazine, E. E. Redfield..... 378,556
Gunpowder press and grainer, P. A. Oliver..... 378,516
Hammer, nail, D. P. Bixelow..... 378,650
Hammer, steam pile driving, J. N. Warrington..... 378,745
Handle attachment, F. Brough..... 378,540
Hanger. See Car door hanger. Eaves trough hanger. Tobacco hanger.
Harrow for listed crops, H. A. Murphy..... 378,611
Harrow, sulky, M. S. & W. A. Doolittle..... 378,578
Harvester and binder, combined, Whiteley & Bayley..... 378,814
Harvester and thrasher, combined, M. P. Farnham..... 378,581
Harvester, corn, J. L. Lamont..... 378,551
Harvester, corn, D. T. Phillips..... 378,521
Harvester, grain binding, W. N. Whiteley..... 378,817
Hat sizing machines, felted roll for, A. T. Clark..... 378,573
Hay rake and loader, C. P. Slaght..... 378,466
Heater. See Hot water heater. Water or liquid heater.
Heel nailing machine, F. F. Raymond, 2d..... 378,417
Hide lifter and carrier for tanneries, A. M. Fletcher..... 378,670
Hinge, butt, Prescott & Locke..... 378,718
Hoe, R. S. Rinker..... 378,723
Hog trough, S. Corderman..... 378,434
Holdback, H. Hansberger..... 378,505
Holder. See Corn holder. Dish holder. Mop holder. Sandpaper holder. Slate pencil holder.
Hook. See Check hook. Trolling spoon hook.
Hoop dressing machine, J. J. Moger..... 378,454
Horse head protector, H. Zeffert..... 378,558
Hose coupling, Atherton & Bentley..... 378,666
Hot water heater, J. M. Thayer..... 378,633
Hub, wheel, C. A. Kinney..... 378,842
Hydraulic motor, G. W. Mason..... 378,701
Hydraulic or other elevator, W. P. Gibson..... 378,674
Hydrocarbon burner, H. L. Howse..... 378,590
Hydrocarbon furnace, W. B. Smith..... 378,852
Incubators, temperature regulator for, C. A. Corman..... 378,435
Indicator. See Railway station indicator. Speed indicator.
Ink pot or holder, A. Kempson..... 378,595
Insect powder gun, J. Jaeger..... 378,687
Insect trap, E. Herrington..... 378,788
Insecticide, F. Feustell..... 378,588
Ironing table, T. B. Porter..... 378,553
Jar fastener, T. B. Howe..... 378,885
Jars, etc., means for hermetically closing, C. H. P. L. De Vilmorin..... 378,496
Jersey stay, Kramer & Levy..... 378,597
Joint. See Rail joint.
Knitted undergarment, J. A. Scriven..... 378,465
Ladder, step, A. M. Whiteley..... 378,638
Lamp, carbureting, O. W. Bennett..... 378,647
Lamp, double arc, Wightman & Rasmussen..... 378,818
Lantern, tubular, C. Bergener..... 378,648
Lasting machine, J. W. Hatch..... 378,446
Lasting machine, Hatch & Pitcher..... 378,506
Lifter. See Hide lifter.
Light. See Arc light.
Liquid receptacles, distributing tip for, W. H. Underwood..... 378,742
Lock. See Carriage door lock. Combination lock. Nut lock. Oar lock.
Lock, V. Jeannot..... 378,593
Locomotive smokestack, P. J. Brown..... 378,192
Looms, tension device for the warp beam of, C. Bailey..... 378,567
Lumber trimming and assorting machine, A. T. Linderman..... 378,796
Magnet, relay, E. L. Orcutt..... 378,562
Mallet, C. A. Svensson..... 378,632
Match for moulding with gated patterns, J. Wachalac..... 378,634
Matrices, apparatus for fitting up, G. Mohr..... 378,789
Mechanical movement, L. H. Nash..... 378,847
Metal, decorating, J. Baynes..... 378,420
Metal, ornamenting, J. Baynes..... 378,421
Metallic plate, embossed, A. C. Hafely..... 378,422
Metallic surfaces, decorating, J. Baynes..... 378,422
Mill. See Fanning mill.
Milling machine, A. H. Brainard..... 378,427
Mining drill, coal, W. A. J. Thompson..... 378,481
Mould board, R. Jones..... 378,841
Mop attachment, C. Mansbarger..... 378,605
Mop holder, B. F. Gilbert, Jr..... 378,586
Motor. See Hydraulic motor. Steam motor.
Mowing machine, Whiteley & Bayley..... 378,816
Multiple drill, F. C. Weir et al..... 378,748
Nail making machine, F. Bryant..... 378,856
Nails, machine for making upholsterers', F. J. Bergmann..... 378,824
Needle grooving machine, P. M. Beers..... 378,489
Nozzle, C. L. Travis..... 378,531
Nut lock, J. Edgar..... 378,779
Nut lock, F. & J. Rennie..... 378,616
Nut lock, H. O. Whyman..... 378,663
Nut tapping machine, L. Wilkinson..... 378,428
Oar lock, W. H. Rice..... 378,792
Ordnance, breech-loading, Driggs & Schroeder..... 378,828
Ore crusher, S. Kendall..... 378,450
Ore, treatment of, Hersey & Conley..... 378,588
Ore washer, T. Sharp..... 378,626
Padlock, combination, Spencer & Sanders..... 378,736
Paging machine, J. McAdams..... 378,607
Paint, H. Burnett..... 378,826
Paper bag, D. Appel..... 378,487
Paper bags, machine for the manufacture of, C. F. Schmidt..... 378,851
Paper bags, manufacture of, C. F. Schmidt..... 378,52

Paper, manufacture of, Pearce & Beardsley.....	378,580
Pencil holder, slate, L. P. Fodrea.....	378,783
Pencil or pin case, A. B. Chase.....	378,768
Pens or tubes, filling device for fountain, Rutherford & Bartram.....	378,524
Photographing apparatus, automatic electric, Bliss & Middleton.....	378,426
Pianos, music rack attachment for upright, H. Ziegler.....	378,486
Pipe. See Sheet metal pipe.	
Pipes, apparatus for treating metal, H. G. Beatley.....	378,756
Plane, bench, H. M. Clark.....	378,494
Plane, bench, Mead & Traut.....	378,704
Planter attachment, corn, W. H. Bowman.....	378,569
Planters, regulating attachment for corn, W. M. Robinson.....	378,724

A printed copy of the specification and drawing of any patent in the foregoing list will be furnished from this office for 25 cents. In ordering please state the name and number of the patent desired, and remit to Munn & Co., 361 Broadway, New York.

Canadian Patents may now be obtained by the inventors for any of the inventions named in the foregoing list, provided they are simple, at a cost of \$40 each. If complicated the cost will be a little more. For full instructions address Munn & Co., 361 Broadway, New York. Other foreign patents may also be obtained.

Advertisements.

Inside Page, each insertion --- 75 cents a line.
Back Page, each insertion --- \$1.00 a line.

The above are charges per agate line—about eight words per line. This notice shows the width of the line, and is set in agate type. Engravings may head advertisements at the same rate per agate line, by measurement, as the letter press. Advertisements must be received at publication office as early as Thursday morning to appear in next issue.

EDISON ELECTRIC LIGHT

FOR
Mills, Factories, Stores, Hotels, Theatres, Steamboats, etc.
CENTRAL STATIONS FOR TOWNS AND VILLAGES.

The EDISON SYSTEM is the best and ONLY COMPLETE SYSTEM of incandescent electric lighting. Over one thousand plants in successful operation. More than one million (1,000,000) Edison Lamps in use in the United States.

GUARANTEE: Twelve sixteen-candle power lamps to the mechanical Horse-Power. Estimates furnished for plants of 25 lights and upwards.

THE EDISON UNITED MANUFACTURING CO.,
65 Fifth Avenue, New York.

1885, D'I Davis, Jr. 1849, Palmer & Hall. 1856, Thos. Hall.

THOMAS HALL, Manufactu'g Electrician & Optician

MANUFACTURER AND IMPORTER OF
Telegraphic, Electric, Magnetic, Galvanic, Optical, and Meteorological Instruments.
Chemicals, Chemical and Philosophical Apparatus of all descriptions.

Illustrated Catalogues of each department. Hall's Patent Medical Batteries.
19 BROMFIELD ST., BOSTON, MASS.

IRRIGATING MACHINERY ON THE
Pacific Coast.—By John Richards. An elaborate discussion of the modifications that have had to be made in irrigating machinery to meet the requirements of local conditions in California. Contained in SCIENTIFIC AMERICAN SUPPLEMENT Nos. 624 and 625. Price 10 cents each. To be had at this office and from all newdealers.

PREPARE for the PRESIDENTIAL CAMPAIGN.

Ray's Patent Folding Transparency. Something entirely new for Political Clubs, Street Parades, etc. State, County, and City Rights for sale. Apply to King Novelty Mfg. Co., Kansas City, Mo.

NATURAL GAS INDUSTRY AT PITTSBURGH, Pa.—A brief history of the Chartiers Valley Gas Company. With 5 illustrations. Contained in SCIENTIFIC AMERICAN SUPPLEMENT No. 627. Price 10 cents. To be had at this office and from all newdealers.

To Capitalists and Manufacturers

The undersigned wishes to arrange for the manufacture on royalty, or would sell outright, two simple inventions for which there is a large demand.

CURTAIN HOLDER, made of wire, which is simple, ornamental, inexpensive, and can be applied readily to any window casing, and which holds the curtain in graceful folds.
TOWEL RACK AND WHISK BROOM HOLDER, made from wire, which may be attached to any window casing or other convenient support without the use of screws or nails. For further particulars apply to ANTON AHLQUIST, Ishpeming, Mich.

Will perfectly center round square, and octagonal pieces from 1/4 in. to 1 1/4 in. One of the most useful, durable, and labor saving tools ever made for centering purposes, and is being universally used. Price \$12. Manufactured by THE CUSHMAN CHUCK CO., Hartford, Conn.

THE GENERATION OF STEAM.—A lecture by Geo. H. Babcock delivered in the Sibley College Course. I. The production of Heat. Furnaces for burning bituminous and anthracite coal, wood, sawdust, waste gas, natural gas, etc., described. II. The Generation of Steam. General principles to be observed in the construction of boilers. With 14 figures. Contained in SCIENTIFIC AMERICAN SUPPLEMENT Nos. 624 and 625. Price 10 cents. To be had at this office and from all newdealers.

CARY & MOEN
STEEL WIRE OF EVERY DESCRIPTION
234 W. 29th ST. NEW YORK CITY

BIT Square, Oval, or Round Smooth Holes. For carpenter, cabinet, and pattern work, 1/2 in. to 5/8 in. set \$4.00, mailed free. Bridgeport Gun Implement Co., 17 Maiden Lane, N. Y.

Shepard's New \$60 Screw-Cutting Foot Lathe

Foot and Power Lathes, Drill Presses, Scroll Saw Attachments, Chucks, Mandrels, Twist Drills, Dogs, Calipers, etc. Lathes on trial. Lathes on payment. Send for catalogue of Outfits for Amateurs or Artisans. Address H. L. SHEPARD, AGENT, 134 East 2d Street, Cincinnati, Ohio.

STORAGE BATTERIES FOR ELECTRIC LOCOMOTION.—A paper by A. Reckenzaun, offering a few facts and figures relating to the present state of the subject of the application of storage batteries to locomotive purposes. Contained in SCIENTIFIC AMERICAN SUPPLEMENT No. 625. Price 10 cents. To be had at this office and from all newdealers.

SEBASTIAN, MAY & CO'S
Improved Screw Cutting
LATHES Foot & Power
\$60.
Drill Presses, Chucks, Drills, Dogs, and machinists' and amateurs' outfits. Lathes on trial. Catalogues mailed on application. 165 W. 2d St., Cincinnati, O.

THE MIND CURE.—BY MARY J. FINLEY, M.D. A review of the theory of metaphysical healing in its relation to physiology and pathology. Contained in SCIENTIFIC AMERICAN SUPPLEMENT No. 627. Price 10 cents. To be had at this office and from all newdealers.

ARTESIAN
Wells, Oil and Gas Wells, drilled by contract to any depth, from 50 to 3000 feet. We also manufacture and furnish everything required to drill and complete same. Portable Horse Power and Mounted Steam Drilling Machines for 100 to 600 ft. Send 6 cents for illustrated catalogue. Pierce Well Excavator Co., New York.

ICE-BOATS — THEIR CONSTRUCTION and management. With working drawings, details and directions in full. Four engravings showing mode of construction. Views of the two fastest ice-sailing boats used on the Hudson river in winter. By H. A. Horsfall, M.E. Contained in SCIENTIFIC AMERICAN SUPPLEMENT No. 1. The same number also contains the rules and regulations for the formation of ice-boat clubs, the sailing and management of ice-boats. Price 10 cents.

BEST SHORT LINE TELEPHONES

PRICES REDUCED.
Ellsworth's "El Eco" Telephones
For short lines and speaking tube purposes. \$7.50 per pair.
Send two-cent stamps for illustrated catalogue and circulars.

KNUDSON & ELLSWORTH,
39 Nassau St., N. Y. City.
200 Cuts, Curious, Catchy Pictures
10 Cts. P. O. BOX 2683, New York

SCIENTIFIC BOOK CATALOGUE, RECENTLY PUBLISHED.

Our new catalogue containing over 100 pages, including works on more than fifty different subjects. Will be mailed free to any address on application.
MUNN & CO., Publishers Scientific American,
361 Broadway, New York.

FIFTY YEARS' PROGRESS IN TELEGRAPHY.—By W. H. Preece, F.R.S. An interesting historical paper. Improvements in apparatus. Telephones, Pneumatic telegraphs, Cables, Railway telegraphs. Capital invested in telegraphs. Contained in SCIENTIFIC AMERICAN SUPPLEMENT No. 607. Price 10 cents. To be had at this office and from all newdealers.

8 LIGHT DYNAMO and MOTOR.
As illustrated in Sci. Am. of April 23 and 30, '87, March 17, '88, and in Sci. Am. SUPPLEMENT, July 2, '87.

COMPLETE MACHINES OR CASTINGS AND MATERIAL FURNISHED ALSO WIRE FOR THE SAME
Address W. S. BISHOP, 95 GRAND AV., NEW YORK CITY

\$10.00 to \$50.00 per night. A light and portable business. Magic Lanterns and Views of popular subjects. Catalogues on application. Part I Optical. 2 Mathematical. 3 Meteorological. 4 Magic Lanterns, etc. L. MANASSE, 88 Madison Street, Chicago, Ill.

COMPRESSION OF AIR.—DESCRIPTION of Messrs. Dubois & Francois' improved air compressing machine, devised for the use of the larger industries and for mining purposes. With 8 figures, illustrating the apparatus in plan, elevation and detail. Contained in SCIENTIFIC AMERICAN SUPPLEMENT No. 435. Price 10 cents. To be had at this office and from all newdealers.

New Catalogue of Valuable Papers contained in SCIENTIFIC AMERICAN SUPPLEMENT, sent free of charge to any address.
MUNN & CO., 361 Broadway, N. Y.

PLAYS

Dialogues, Tableaux, Speakers, for School, Clubs, Parlors, Bestout. Catalogue free. T. S. DENSON, Chicago, Ill.

QUARANTINE SYSTEM OF LOUISIANA.—By Joseph Holt, M.D. Description of the methods of disinfection practiced. With 4 figures. Contained in SCIENTIFIC AMERICAN SUPPLEMENT No. 627. Price 10 cents. To be had at this office and from all newdealers.
