New Gas Engine The Baldwin"

Exhibited at the late American Institute Fair, New York. A four horse-power engine in connection with storage battery, running 84 incandescent electric lights (and without battery, 82 lights), giving a perfect light, with all the steadiness that can be obtained from the high-speed steam engines in common use for electric lighting, and permitting any number of lights to be shut off or turned on without affecting the remaining lights in the slightest degree. A marvel of beauty, perfection, and power, adapted to lighting, pumping, and all purposes where a safe and cheap power is required. Manufactured and guaranteed by

Otis Brothers & Co.,

Elevators and Hoisting Machinery, 38 PARK ROW, NEW YORK.

Barnes' Patent Foot Power Machinery. WORKERS OF WOOD OR METAL, withoutsteam power, by using outfits of these Machines can bid lower, and save more money from their jobs, than by any other means for doing their joss, than by any other means for doing their work. Also for Industrial Schools or Home Training. With them boys can acquire practical journeymen's trades before they "go for themselves." Price-List Catalogue Free.
