New Cas Engine "The Baldwin"

Exhibited at the late American Institute Pair, New York.

A four horse-power engine in connection with storage battery, running 84 in andescent electric lights (and without
battery, 23 lights), giving a perfect light, with all the steadiness that can be obtained from the high-speed steam engines
in common use for electric lighting, and permitting any number of lights to be shut off or turned on without affecting the
remaining lights in the slightest degree. A marvel of beauty,
perfection, and power, adapted to lighting, pumping, and all
purposes where a safe and cheap power is required. Manufactured and guaranteed by
