Of intelligence and limited capital wanted as managers of State and city agencies for our improved system of state and city agencies for our improved system of automatic gas control, now being universally adopted in all gas-burning cities. The system secures to the consumer absolute and automatic control of his gas pressure, irrespective of the constantly changing conditions of supply or demand; reduces insurance risks and danger from fire, incident to whistling, blowing, and smoking burners, and preventing the frequent breaking of costly globes.

Secures perfect combustion of the gases, thereby increasing illumination and obviating the sooty deposits of unconsumed carbon upon frescoed walls, paintings, or drapery.
