B. W. PAYNE & SONS,

LEAD SMELTING.—A FULL DESCRIP

TO BUSINESS MEN.

The value of the SCIENTIFIC AMERICAN as an advertising medium cannot be overestimated. Its circulation is many times greater than that of any similar journal now published. It goes into all the States and Territories, and is read in all the principal libraries and reading rooms of the world. A business man wants something more than to see his advertisement in a printed newspaper. He wants circulation. This he has when he advertises in the SCIENTIFIC AMERICAN. And do not let the advertising agent influence you to substitute some other paper for the SCIENTIFIC AMERICAN, when selecting a list of publications in wince you decide it is for your interest to advertise. This is frequently done, for the reason toat the agent zets a larger commission from the papers having a small circulation than is allowed on the SCIENTIFIC AMERICAN.
