Both the Frames and Blades of our Star Hack Saws are now as perfect as human skill can make them. The Frame is steel, polished and Nickel plated, and will hold all blades from 3 to 12 inches, and face them in four directions. With the extra clamp, as seen in the cut, all broken blades can be used. These Saws have a file temper, and one five cent blade will cut iron or soft steel steadily for several hours, doing more work than a dollar's worth of files.
