Advertisements must be received at publication office as early as Thursday morning to appear in next issue.

South the Frames and Blades of our Star Hack Saws are now as perfect as human skill can make them. The Frame is steel, polished and Nickel plated, and will hold all blades from 3 to 12 inches, and face them in four directions. With the extra clamp, as seen in the cut, all broken blades can be used. These Saws have a file temper, and one five cent Blade will cut iron or soft steel steadily for several hours, doing more work than a dollar's worth of files.

BUSINESS MEN.

The value of the SCIENTIFIC AMERICAN as an advertising medium cannot be overestimated. Its circulation is many times preater than that of any similar jour nal now published. It goes into all the States and Territories, and is read in all the principal libraries and reading rooms of theworld. A business man wants something more than 10 see his advertisement in a printed newspaper. He wants circulation. This he has when he advertises in the SCIENTIFIC AMERICAN. And on tot let the advertising agent intinence you to substitute some other paper for the SCIENTIFIC AMERICAN. When selecting a list of publications in warea you decide it is for your interest to advertise. This is frequently done, for the reason that the agent gets a larger commission from the papers having a small circulation than is allowed on the SCIENTIFIC AMERICAN.
