PATENTS!

MESSRS. MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had forty-one years' experience, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business entrusted to them is done with special care and promptness, on very reasonable terms.

A pamphlet sent free of charge, on application, containing full information about Patents and how to procure them: directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases. Hints on the Sale of Patents, etc.

We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world.

Engine was Set Up and Started by our Printed Directions.

NEW HAVEN, CONN., July 30, 1890.

Charter Gas Engine Co., Sterling, Ill.
GENTLEMEN:—We have now used your Gasoline Engine for two months and is giving good satisfaction. Requires no attention after it is started, which generally takes four to five minutes. A large number of persons have seen it; some pronounce it a wonder, and others, who are familiar with gas engines, as the finest they ever saw. We would cheerfully recommend the "Charter" to all persons in need of power, especially to those where work is of an intermittent character, as the expense ceases whenever the engine is not running. Engine was set up and started by your printed directions. Yours truly,
THOMPSON & BAIL.

THE GREAT IMPROVEMENT IN ROOFING

We are now ready to supply the product of entirely new machinery and processes just completed, by aid of which we not only have greatly improved the strength and durability of our well-known ASBESTOS ROOFING, but have also secured a degree of uniformity never before attained in any similar fabric. We offer this as the PERFECTED form of the portable Roofing which we have manufactured with continued improvements during the past thirty years, and as the most desirable Roofing for general purposes.

The important features of our recent improvements, for which patents have been allowed and others applied for in this Country and in Europe, are described in our new circular, which, with samples, will be sent free by mail.

Our Asbestos Roofing is now in use upon Factories, Foundries, Cotton Gins, Chemical Works, Railroad Bridges, Cars, Steamboat Decks, etc., in all parts of the world.

It is supplied ready for use, in rolls containing 200 square feet, and weighs, with Asbestos Roof Coating, ready for shipment, about 85 pounds to 100 square feet.

It is adapted for steep or flat roofs in all climates, and can be readily applied by unskilled workmen.

There are inferior imitations of our Asbestos Roofing. Purchasers are cautioned.

Exclusive sale of our IMPROVED ASBESTOS ROOFING will be given to reliable dealers in important towns where we have not already made arrangements.
