

A New and Splendid Companion to all the Metal Industries.

Fully abreast of the latest inventions and discoveries, as well in the largest and coarsest as in the smallest and finest of metal work.

JUST READY.

Price, \$2.50.

Free of Postage to any address in the World.

THE Metal Worker's Handy-Book

RECEIPTS AND PROCESSES.

Being a collection of Chemical Formulas and Practical Manipulations for the working of all the Metals and Alloys, including the Decoration and Beautifying of articles manufactured therefrom, as well as their preservation. Edited from various sources by William T. Brant, editor of "The Techno-Chemical Receipt Book" and "The Metallic Alloys." Illustrated by 63 engravings. One volume, over 500 pages, 12mo, elegantly bound in scarlet cloth, gilt, closely printed, containing a vast amount of valuable matter on all the Metals and Alloys, not to be found in any other book in the English language.

Price \$2.50, free of postage to any address in the world. A circular of 2 pages, showing the full Table of Contents of this valuable book, will be sent free and free of postage to any one in any part of the world who will furnish us with his address.

HENRY CAREY BAIRD & CO., INDUSTRIAL PUBLISHERS, BOOKSELLERS & IMPORTERS 810 Walnut St., Philadelphia, Pa., U. S. A.

THE NEW BOOK.

Experimental Science

By GEO. M. HOPKINS.

740 Pages. Over 680 Illustrations. PRICE, by mail, postpaid, \$4.00

SEND FOR FULL ILLUSTRATED CIRCULAR AND TABLE OF CONTENTS.

This is a book full of interest and value for teachers, students, and others who desire to impart or obtain a practical knowledge of physics.

MUNN & CO., Publishers, Office of The Scientific American 361 BROADWAY, NEW YORK.

What the Press says of "Experimental Science." "Mr. Hopkins has rendered a valuable service to experimental physics."—Evening Post.

"The book is one of very practical character, and no one of a scientific turn of mind could fail to find in its pages a fund of valuable information."—Electric Age.

"The electrical chapters of the book are notably good, and the practical instruction given for building simple electrical machinery may be safely carried out by those—not a few—who like to make their own apparatus."—Electrical World.

"The author has avoided repeating the hackneyed illustrations which have been passed from one book to another so long, and, instead, offers a set of experiments which are largely of a novel character and very striking."—Engineering and Mining Journal.

"We commend it most heartily to all teachers."—Normal Exponent.

"It is a treat to read a book of this kind, that sets forth the principles of physics so fully, and without the use of mathematics."—The Locomotive.

"All teachers of science are aware that real knowledge is acquired best by the student making experiments for himself, and any one who points out how those experiments may be easily made is doing excellent work."—English Mechanic and World of Science.

"The work bears the stamp of a writer who writes nothing but with certainty of action and result, and of a teacher who imparts scientific information in an attractive and familiar manner."—American Engineer.

"It should be found in every library."—English Mechanic.

"The book would be a most judicious holiday gift."—Engineering and Mining Journal.

"The portion of the book devoted to dynamic electricity covers over one hundred pages, and is extremely interesting and valuable."—Brooklyn Standard Union.

"Directions are given for demonstrating most of the laws of physics, with every-day tools and common appliances."—American Photographer.

"Many of the experiments are new to print, while some of the old, familiar ones appear in modified form and with simplified apparatus."—Public Opinion.

PATENTS!

MESSRS. MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had forty-one years' experience, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business entrusted to them is done with special care and promptness, on very reasonable terms.

A pamphlet sent free of charge, on application, containing full information about Patents and how to procure them; directions concerning Labels, Copyrights, Bessemer Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases. Hints on the Sale of Patents, etc.

We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world.

MUNN & CO., Solicitors of Patents, 361 Broadway, New York.

BRANCH OFFICES.—No. 622 and 624 F Street, Pacific Building, near 7th Street, Washington, D. C.

FIRE FELT.

THE NEW NON-CONDUCTING MATERIAL is a Flexible Felt Made of Pure Asbestos, in a finely divided fibrous state, indestructible by heat and unexcelled as a Non-Conductor. U. S. Navy tests show it to be superior to Hair Felt in Non-Conducting qualities. Made into sectional form for pipes and into sheets and rolls for large surfaces. Send for Samples. Asbestos Boiler Coverings, Steam Packings, Asbestos Cloth, Asbestos Building Paper, etc. THE CHALMERS-SPENCE CO., 59 and 61 Liberty St., New York. BRANCHES:—Philadelphia, Chicago, Pittsburgh, Boston.

Engravings direct from photographs and other copy. Our circular "N" shows specimens. Fine printing a specialty.

GRAND PRIZE Paris Exposition, 1889.

Thin Panel Stock IN WHITEWOOD, WALNUT, ETC..

Manufactured by the original "Système Bartlett," received the Highest Award and only "Grand Prize" given to this industry. The only "Système" introduced into Europe and America that produces a perfectly sound cut board.

HENRY T. BARTLETT, CABINET WOODS, MAHOGANY and VENEERS, SAW MILLS. 200 Lewis Street, New York.

Barnes' New Sensitive Drill

Has These Great Advantages: The speed of the drill spindle can be increased or diminished instantly, or the motion reversed, without stopping the machine or shifting belts. More or less driving power can be applied to the drill spindle as the size of the drill or the nature of the work may demand.

W. F. & JNO. BARNES CO., 1999 Ruby St., Rockford, Ill.

Patente.

An deutsche Erfinder. Die grosse und thätige Klasse der deutschen Erfinder in den Vereinigten Staaten machen wir besonders darauf aufmerksam, dass unsere Firma durch ihre Verbindungen mit Washington und den europäischen Hauptstädten, besondere Vortheile zur Erlangung von in- und ausländischen Patenten bietet. Jeder Erfinder, gleichviel welcher Nationalität angehört, ist durch die liberalen Patentgesetze der Vereinigten Staaten zum Patentschutz für Erfindungen berechtigt. Unsere Firma ist bereit, geschnitz auf eine 45 jährige Erfahrung, deutsche Erfinder jeder Zeit zu beraten und ihnen behilflich zu sein zu mässigen Preisen rasch und pünktlich Patente zu erlangen. Unsere deutsche Abtheilung wird von fähigen deutschen Ingenieuren geleitet welche in der Office mit persönlich vorsehrenden Erfindern direkt verkehren, und Rath und Auskunft geben. — Unsere weltbekannte und populär gehaltene Zeitschrift der "Scientific American" bespricht in ihren Spalten die bedeutenderen Erfindungen der Neuzeit. Eine kurze Beschreibung von Erfindungen, die durch uns patentirt werden, geben wir unentgeltlich in unserer Zeitschrift. Correspondenz in deutscher Sprache erbeten. Pamphlet, in deutscher Sprache, über Patente wird auf Verlangen frei zugeschiedt. Man adressire: MUNN & CO., 361 Broadway, New York.

THE Scientific American
ESTABLISHED 1846.

The Most Popular Scientific Paper in the World.
Only \$3.00 a Year, including Postage. Weekly. 52 Numbers a Year.

This widely circulated and splendidly illustrated paper is published weekly. Every number contains sixteen pages of useful information and a large number of original engravings of new inventions and discoveries, representing Engineering Works, Steam Machinery, New Inventions, Novelties in Mechanics, Manufactures, Chemistry, Electricity, Telegraphy, Photography, Architecture, Agriculture, Horticulture, Natural History, etc.

Terms of Subscription.—One copy of the SCIENTIFIC AMERICAN will be sent for one year—52 numbers—postage prepaid, to any subscriber in the United States, Canada or Mexico, on receipt of three dollars by the publishers; six months, \$1.50; three months, \$1.00.

MUNN & CO.,
361 Broadway, New York.
THE Scientific American Supplement.

This is a separate and distinct publication from THE SCIENTIFIC AMERICAN, but is uniform therewith in size, every number containing sixteen large pages full of engravings, many of which are taken from foreign papers, and accompanied with translated descriptions.

The most important Engineering Works, Mechanisms, and Manufactures at home and abroad are illustrated and described in the SUPPLEMENT.
Price for the SUPPLEMENT for the United States and Canada, \$5.00 a year, or one copy of the SCIENTIFIC AMERICAN and one copy of the SUPPLEMENT, both mailed for one year for \$7.00. Single copies 10 cents. Address and remit by postal order, express money order, or check.
MUNN & Co., 361 Broadway, N. Y.
Publishers SCIENTIFIC AMERICAN.

Building Edition.

THE SCIENTIFIC AMERICAN ARCHITECTS' AND BUILDERS' EDITION is issued monthly. \$2.50 a year. Single copies, 25 cents. Forty large quarto pages, equal to about two hundred ordinary book pages; forming a large and splendid Magazine of Architecture, richly adorned with elegant plates in colors, and with other fine engravings; illustrating the most interesting examples of modern Architectural Construction and allied subjects.

A special feature is the presentation in each number of a variety of the latest and best plans for private residences, city and country, including those of very moderate cost as well as the more expensive. Drawings in perspective and in color are given, together with full Plans, Specifications, Sheets of Details, Estimates, etc.

MUNN & CO., Publishers, 361 Broadway, New York.

PRINTING INKS.
THE "Scientific American" is printed with CHAS. ENEU JOHNSON & CO.'S INK, Tenth and Lombard Sts., Phila., and 47 Roe St., opp. Duane St., N. Y.
