Chatter Gas Engine Co., P. O. Box 148, Sterling, Ill.
GENTLEMEN:—The No. 1 Charter, with Gasoline Attachment, purchased of you in March last, fills the place for which it was bought in every respect. My work being light, I have not used more than one-fourth of the power it is capable of supplying, but have no doubt from what it does now that I can call on it for all the work you claimed it would do and then have enough left over for the man "with ax & grind." The expense of running is also fully inside of your claim, and without exception, it requires the least care of any engine of which I know.
Yours truly,
S. A. DALE.
