The New Book.

# **Experimental Science**

By GEO. M. HOPKINS.

740 Pages. Over 680 Illustrations.
PRICE, by mail, postpaid, \$4.00

SEND FOR FULL ILLUSTRATED CIRCULAR AND TABLE OF CONTENTS.

This is a book full of interest and value for teachers, students, and others who desire to impart or obtain a practical knowledge of physics.

#### MUNN & CO., Publishers, Office of The Scientific American 361 BROADWAY, NEW YORK.

What the Press says of "Experimental Science."

what the Press says of "Experimental Science."
"Mr. Hopkins has rendered a valuable service to experimental physics."—Evaning Pest.
"The book is one of very practical character, and no one of a scientific turn of mind could fail to find in its pages a fund of valuable information."—Electric Age,
"The evertrical capters of the book are notably good, and the practical instruction given for building simple electrical machinery may be safely carried out by those—not a few—who like to make their own apparatus."—
Electrical World.

electrical machinery may be safely carried out by those — not a few—who like to make their own apparatus."—
Electrical World.

"The author has avoided repeating the hackneyed illustrations which have been passed from one book to another so long, and, instead, offers a set of experiments which are largely of a novel character and very striking."—Engineering and Mining Janual.

"We commend it most heartly to all teachers."—Normal Exponent.

"It is a treat to read a book of this kind, that sets forth the principles of physics so fully, and without the use of mathematics."—The Locomotice.

"All teachers of science are aware that real knowledge is acquired best by the student making experiments for biuself, and any one who points out how those experiments may be easily made is doing excellent week."—English Mechanic and World of Science.

"The work bears the stamp of a writer who writes nothing but with certainty of action and result, and or a teacher who imparts scientific information in an attractive and fascinating manner."—Emglish Mechanic.

"I'the book would be a most judicious holidsy efft"—

"The book would be a most judicious holidsy efft"—

"It should be found in every library."—English Mechanic.
"The book would be a most judicious holiday gift."—Engineering and Mining Journal.
"The portion of the book devoted to dynamic electricity covers over one hundred pages, and is extremely interesting and valuable."—Brooking Standard Union.
"Directions are given for demonstrating most of the laws of physics, with every-day tools and common appliances."—A nerican Photographer.
"Many of the experiments are new to print, while some of the old, familiar ones appear in modified form and with simplified apparatus."—Public Opinion.

Simple, Perfect and Self-Regulat-ing. Hundreds in successful operation. Guaranteed to hatch a larger percentage of fertile eggs at less cost than any other hatcher, send 6c, for Illus Catalogue. Circulars free. GEO.H.STAHL, QUINCY, ILL.

# MECHANICAL DRAWING.

By Pref. C. W. MacCord, of the Stevens Institute of Technology. A series of new, original, and practical Jessons in mechanical drawing, accompanied by carefully prepared examples for practice, with directions, all of simple and plain character, intended to enable any person, young or old, skilled or unskilled, to acquire the art of drawing. No expensive instruments are involved. Any person with slate or paper may rapidly learn. The series embodies the most abundant illustrations for all descriptions of drawing, and forms the most valuable treatise upon the subject ever published, as well as the cheapest. The series is illustrated by upward of 450 special engravings, and forms a large quarto book of over one hundred pages, uniform in size with the SCIENTIFIC AMER-ICAN. Price, stitched in paper, \$2.50; bound in handsome stiff covers, \$3.50. Sent by mail to any address on receipt of price.

For the convenience of those who do not wish to purchase the entire series at once, we would state that these valuable lessons in mechanical drawing may also be had in the separate numbers of SUP-PLEMENT, at ten cents each. By ordering one or more numbers at a time, the learner in drawing may supply him self with fresh instructions as fast as his practice requires. These lessons are published successively in \*1, \*3, \*4, \*6, \*8, \*9, \*12, \*14, \*16, \*18, \*20, \*22, \*24, \*26, \*28, \*30, \*32, \*36, \*37, \*38, \*39, \*40, \*41, \*42, \*43, \*44, \*45, \*46, \*47, \*48, \*49, \*50, \*51, \*52, \*53, \*54, \*56, \*58, \*60, \*62, \*65, \*69, \*74, \*78, \*84, \*91, \*94, \*100, \*101, \*103, \*104, \*105, \*106, \*107, \*108, \*134, \*141, \*174,
