THE Popular Science Monthly

FOR 1892.

A Culture that lacks Science is a one-sided Culture.

THE POPULAR SCIENCE MONTHLY is the one periodical that gives access to the scientific culture of the time, and it will in the future represent scientific thought and achievement even more fully than it has in the past. Volumes XL and XLI. The valuable series of illustrated articles on

THE DEVELOPMENT OF AMERICAN INDUSTRIES SINCE COLUMBUS,

now running in the MONTHLY, will be continued into the coming year. There have already been published three articles on *The Woolen Manufacture*, by S. N. D. NORTH; four articles on *The Making of Iron and Steel*, by W. F. DUFFEE; the first of two articles on *American Pottery* appears in the December number. All of these are profusely illustrated; and similar papers on *The Cotton Manufacture*, by EDWARD ATKINSON and Gen. W. F. DRAPE; *Plano-Making*, by DANIEL SPILLANE; *Glass-Making*, by Prof. C. HANFORD HENDERSON; and on *The Leather, Silk, Paper, Agricultural Machinery, and Ship-Building Industries* will appear in course. Hon. CARROLL D. WRIGHT will continue his incisive *Lessons from the Census*. Dr. ANDREW D. WHITE will contribute some concluding papers on *The Warfare of Science*, and there will be occasional articles from Hon. DAVID A. WELLS and from DAVID STARCK JORDAN, President of Stanford University.

Twenty years ago our first number was issued with the following statement: "THE POPULAR SCIENCE MONTHLY has been started to help on the work of sound public education, by supplying instructive articles on the leading subjects of scientific inquiry. It will contain papers original and selected, on a wide range of subjects, from the ablest scientific men of different countries, explaining their views to non-scientific people." This task has grown larger and more important with the continual growth of science, and the scope and resources of the MONTHLY have been correspondingly widened. No pains will be spared for its adequate performance in the future.

EDITED BY WILLIAM JAY YOUNG.

\$5.00 a Year; 50 Cents a Number.

PATENTS!

MESSRS. MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine improvements, and to act as Solicitors of Patents for Inventors.
In this line of business they have had forty-five years' experience, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business entrusted to them is done with special care and promptness, on very reasonable terms.
A pamphlet sent free of charge, on application, containing full information about Patents and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases. Hints on the sale of Patents, etc.
We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing Patents in all the principal countries of the world.
