ORDINARY RATES.

Inside Page, each insertion, - 75 cents a line  
Back Page, each insertion, - \$1.00 a line

The above are charges per agate line—about eight words per line. This notice shows the width of the line, and is set in agate type. Engravings may be had at the same rate per agate line, by measurement, as the letter press. Advertisements must be received at Publication Office as early as Thursday morning to appear in the following week's issue.

OVERMAN WHEEL CO.  
BOSTON, WASHINGTON, DENVER, SAN FRANCISCO.  
A. G. SPALDING & BROS., Special Agents,  
CHICAGO, NEW YORK, PHILADELPHIA.

COLD FORGED PRODUCT.

"Spur Pointed" Wood Screw.

Patented May 10, July 15, 1887; Oct. 23, 1889;  
Aug. 15, Oct. 21, 1890; April 7, May 12, 1891;  
July 15, 1892.

Its Advantages are:

- 1. Stronger than a common screw.  
2. Uniform and wide slot.  
3. Requires the use of but one bit in hard wood.  
4. Inserted easier.  
5. Centralized point.  
6. Superior holding power.  
7. The screw being Cold Forged, instead of cut, leaves on its entire surface a metallic skin.

All Kinds of Disease Germs.  
Is a Filter and Cooler Combined.  
The ice as it melts is filtered.

No other gravity filter does this.

The McConnell Filter Co.  
BUFFALO, N. Y.

Ask questions:

"Is it handsome, genuine, accurate?"

Is it modern, with all the improvements? In all sizes and styles for everybody; the new, quick-winding Waterbury?"

Yes—to everything. A prominent publisher writes:

"You made one additional customer, and my quick-winding Waterbury is a better time-keeper than a hundred-dollar watch a friend of mine bought some months ago."

Yet the cost ranges from \$15 down to \$4. It has a jeweled movement, and is cased in dainty chatelaines, hunting-cases, open-faces, filled gold, coin-silver, etc. Every jeweler sells it.

PATENTS!

Messrs. MUNN & CO., in connection with the publication of the Scientific American, continue to examine inventions, and to act as Solicitors of Patents for Inventors.

In this line of business they have had forty-five years' experience, and now have increased facilities for the preparation of Patent Drawings, Specifications, and the prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. MUNN & CO. also attend to the preparation of Caveats, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business entrusted to them is done with special care and promptness, on very reasonable terms.

A pamphlet sent free of charge, on application, containing full information about Patents and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases. Hints on the sale of Patents, etc.

We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing Patents in all the principal countries of the world.

KODAK FILMS.

Our New Films are giving perfect satisfaction. They are highly sensitive, and repeated tests show that they retain this sensitiveness as well as glass plates. No other films are so free from imperfections; none so uniform; none so reliable. Our film doesn't frill.

Send for large catalogue of 1500 articles. B. H. INGERSOLL & BRO. 65 Cortlandt St. N. Y. City.

The American Bell Telephone Company  
125 MILK ST., BOSTON MASS.

This Company owns the Letters Patent No. 186,787, granted to Alexander Graham Bell, January 30, 1877, the scope of which has been defined by the Supreme Court of the United States in the following terms:

"The patent itself is for the mechanical structure of an electric telephone to be used to produce the electrical action on which the first patent rests. The third claim is for the use in such instruments of a diaphragm, made of a plate of iron or steel, or other material capable of inductive action; the fifth, of a permanent magnet constructed as described, with a coil upon the end or ends nearest the plate; the sixth, of a sounding box as described; the seventh, of a speaking or hearing tube as described for conveying the sounds; and the eighth, of a permanent magnet and plate combined. The claim is not for these several things in and of themselves, but for an electric telephone in the construction of which these things or any of them are used."

This Company also owns Letters Patent No. 463,569, granted to Emile Berliner, November 17, 1891, for a Combined Telegraph and Telephone; and controls Letters Patent No. 474,231, granted to Thomas A. Edison, May 3, 1892, for a Speaking Telegraph, which cover fundamental inventions and embrace all forms of microphone transmitters and of carbon telephones.
