VICTOR BICYCLES

FIRST IN TIRES AND IMPROVEMENTS

Ten Thousand Dollars

was lost, in 1892, to the L. A. W. Road Improvement Fund, because no bicycle maker dared contest the claim that our factory is the best equipped bicycle factory in the world. We stood ready for one year to prove this or forfeit $10,000 as stated, but no one accepted the challenge.

We lead in tires, improvements and facilities, and Victor Bicycles are best.

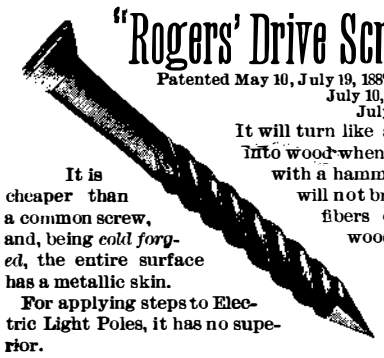
"Rogers' Drive Screw."

Patented May 10, July 19, 1887; July 10, 1888; July 19, 1892.



It will turn like a screw into wood when driven with a hammer, and will not break the fibers of the wood.

It is cheaper than a common screw, and, being *cold forged*, the entire surface has a metallic skin.

For applying steps to Electric Light Poles, it has no superior.

Wise Saws

about economy and punctuality are useless without a practical application. You waste precious minutes with an uncertain watch; and if it is a costly one, there's the expense of risking it every day. The need is for an accurate, low-priced watch that has all the improvements and plenty of "style,"—the new **quick-winding Waterbury** covers these points. Both ladies' and gentlemen's styles, and a style for boys. It is stem-winding and setting; and has a jeweled movement cased in filled gold (14-karat), coin-silver, etc. $4 to $15.

Sold by every jeweler, in all sizes and styles. An elegant and accurate time-keeper. 27
