JUST PUBLISHED. Star Maps

Star Maps By Richard A. Proctor, F.R.A.S.

A series of twelve elegantly printed Maps of the Heavens, one for every month in the year. Specially prepared for use in North America. With descriptions accompanying each map, giving the names of the principal stars and constellations, showing their relative positions at given hours and days of the month. A most beautiful and convenient work, specially adapted for the use of those who desire to acquire a general knowledge of the starry realms. To which is added a description of the method of preparing and using artificial luminous stars as an aid in fixing in the mind the names and places of the various stars and constellations, by Alfred E. Beach. Altogether this is one of the most popular, useful and valuable works of the kind ever published. One quarto volume, elegantly bound in cloth. Price \$2.50, postpaid. **MUNN & CO., Publishers,** 361 Broadway, New York.

PATENTS
 taken through Munn & Co. receive special notice in the Scientific American. This splendid weekly paper, elegantly illustrated, has the largest circulation of any scientific work. \$3 a year. Specimen copies free. Address **MUNN & CO.,** New York, 367 Broadway.

A New and Valuable Book.

12,500 Receipts. 708 Pages. Price \$5. Bound in Sheep, \$6. Half-Morocco, \$6.50. This splendid work contains a careful compilation of the most useful Receipts and Replies given in the Notes and Queries of correspondents as published in the Scientific American during the past fifty years; together with many valuable and important additions. Over Twelve Thousand selected Receipts are here collected; nearly every branch of the useful arts being represented. It is by far the most comprehensive volume of the kind ever placed before the public. The work may be regarded as the product of the studies and practical experience of the ablest chemists and workers in all parts of the world; the information given being of the highest value, arranged and condensed in concise form convenient for ready use. Almost every inquiry that can be thought of, relating to formulae used in the various manufacturing industries, will here be found answered. Instructions for working many different processes in the arts are given. Those who are engaged in any branch of industry probably will find in this book much that is of practical value in their respective callings. Those who are in search of independent business or employment, relating to the home manufacture of sample articles, will find in it hundreds of most excellent suggestions. Send for Descriptive Circular. **MUNN & CO., Publishers,** SCIENTIFIC AMERICAN OFFICE, 361 Broadway, New York.
