Star Maps

By Richard A. Proctor, F.R.A.S.

* * *

A series of twelve elegantly printed Maps of the Heavens, one for every month in the year. Specially prepared for use in North America. With descriptions accompanying each map, giving the names of the principal stars and constellations, showing their relative positions at given hours and days of the month.

A most beautiful and convenient work, specially adapted for the use of those who desire to acquire a general knowledge of the starry realms.

To which is added a description of the method of preparing and using artificial luminous stars as an aid in fixing in the mind the names and places of the various stars and constellations, by Alfred E. Beach.

Altogether this is one of the most popular, useful and valuable works of the kind ever published. One quarto volume, elegantly bound in cloth. Price \$2.50, postpaid.
