For the Pictorial and Literary Presentation of the Events of the Day

Harper's Weekly

TAKES THE LEAD.

In addition to its many other attractions, illustrated records of the achievements in

SCIENCE AND ART

form a notable feature. During 1894 there have been capital articles on such topics as:

- Chicago Drainage Canal.
- Recent Excavations at Dashur, Egypt.
- Gold Mines of Colorado.
- Need of a National Health Board.
- Electrical Industries.
- Cleansing the Streets of Paris.

Constant advancement in excellence is the chief guide in the direction of HARPER'S WEEKLY, and, with almost boundless resources, it will continue to treat every scientific event of public interest comprehensively and at the shortest notice.
