 Our New and Revised Catalogue of Practical and Scientific Books, 90 pages, 8vo., and our other Catalogues and Circulars, the whole covering every branch of Science applied to the Arts, sent free and free of postage to any one in any part of the world who will furnish his address.
 For the Pictorial and Literary Presentation of the Events of the Day

Harper's Weekly

TAKES THE LEAD.

In addition to its many other attractions, illustrated records of the achievements in

SCIENCE AND ART

form a notable feature. During 1894 there have been capital articles on such topics as:

- Chicago Drainage Canal.
- Recent Excavations at Dashur, Egypt.
- Gold Mines of Colorado.
- Need of a National Health Board.
- Electrical Industries.
- Cleansing the Streets of Paris.

Constant advancement in excellence is the chief guide in the direction of HARPER'S WEEKLY, and, with almost boundless resources, it will continue to treat every scientific event of public interest comprehensively and at the shortest notice.

The Independent.

NEW YORK CITY.

The Leading Religious and Literary Weekly Newspaper of the World.

The past record of THE INDEPENDENT is an earnest of what it will be in the future.

It maintains a high standard from year to year, and furnishes a newspaper unsurpassed in the variety, quality, and quantity of the literature it offers in the representative character of its contributors, and in the breadth, ability, and vigor of its editorial discussions.

During the past year THE INDEPENDENT has printed 1060 columns of reading matter, equivalent in octavo volumes to Bancroft's complete "History of the United States" twice over, with three volumes to spare.

It has printed during the same time over 200 original poems, from the pens of the leading American, English and Canadian poets.

It makes a specialty of short stories for old and young—bright, readable ones of unexceptionable tone and literary merit.

It gives a complete religious history of the times in addition to full reports of all important religious assemblages at home and abroad. It prints fresh letters from all mission fields throughout the world.

There is no weekly newspaper printed in the English language so instructive, so necessary, and useful to all classes and conditions of society as THE INDEPENDENT.

It makes its terms of subscription so favorable that few people have any excuse for not reading it habitually.

Terms of Subscription:

A Valuable Book

12,500 Receipts. 708 Pages. Price \$5. Bound in Sheep, \$6. Half-Morocco, \$6.50.

This splendid work contains a careful compilation of the most useful Receipts and Replies given in the Notes and Queries of correspondents as published in the Scientific American during the past fifty years; together with many valuable and important additions.

Over Twelve Thousand selected Receipts are here collected; nearly every branch of the useful arts being represented. It is by far the most comprehensive volume of the kind ever placed before the public.

The work may be regarded as the product of the studies and practical experience of the ablest chemists and workers in all parts of the world; the information given being of the highest value, arranged and condensed in concise form convenient for ready use.

Almost every inquiry that can be thought of, relating to formulae used in the various manufacturing industries, will here be found answered. Instructions for working many different processes in the arts are given. Those who are engaged in any branch of industry probably will find in this book much that is of practical value in their respective callings. Those who are in search of independent business or employment, relating to the home manufacture of sample articles, will find in it hundreds of most excellent suggestions. **Send for Descriptive Circular.** **MUNN & CO., Publishers, SCIENTIFIC AMERICAN OFFICE, 361 Broadway, New York.**
