ARMSTRONG'S PIPE & THREADING AND CUTTING-OFF MACHINES

Both Hand and Power. Sizes 1 to 6 inches. Water, Gas, and Steam Fitters' Tools, Ringed Pipe Vises, Pipe Cutters, Stocks and Dies universally acknowledged to be THE BEST. Write for catalog. Armstrong Mfg. Co., Bridgeport, Conn.

MUSIC AND LONGEVITY.—A PAPER by Ephraim Cutter, M.D., in which the author endeavors to show that music prolongs or is thought to prolong life; that diseases peculiar to and preventive of longevity are those that impede the circulation of air, blood and nerve force. That music is physiologically capable of enlarging the chest and the capillaries and of calming and regulating, if not increasing nerve force, and that other things being equal, longevity should belong to musical people. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 924. Price 10 cents. To be had at this office and from all newsdealers.

Star Maps By Richard A. Proctor, F.R.A.S.

A series of twelve elegantly printed Maps of the Heavens, one for every month in the Year. Specially prepared for use in North America. With descriptions accompanying each map, giving the names of the principal stars and constellations, showing their relative positions at given hours and days of the month.

A most beautiful and convenient work, specially adapted for the use of those who desire to acquire a general knowledge of the starry realms. To which is added a description of the method of preparing and using artificial luminous stars as an aid in fixing in the mind the names and places of the various stars and constellations, by Alfred E. Beach.

Altogether this is one of the most popular, useful and valuable works of the kind ever published.

One quarto volume, elegantly bound in cloth. Price \$2.50, postpaid.

MUNN & CO., Publishers, 361 Broadway, New York.

THE ART OF BOOK AND NEWSPAPER ILLUSTRATION.—By Henry Blackburn. Three interesting lectures on the present status of book and newspaper illustration. How the illustrations of one number of an illustrated newspaper are produced; what part the original artist has in it; what part the photographer, and what part the wood engraver. "Process" work—the photo-zinc process, the gelatine relief process, half-tone process, process block makers. Consideration of a class of illustrations in which the artist of the future will have to come more into personal contact with the author than he has been in the habit of doing. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, Nos. 950, 951 and 952. Price 10 cents each. To be had at this office and from all newsdealers.

EDGE TOOLS are often nearly ruined by using a grindstone not adapted to the work. Our quarts produce a large variety of grinds suitable for grinding any tool. TO BUSINESS MEN

The value of the SCIENTIFIC AMERICAN as an advertising medium cannot be overestimated. Its circulation is many times greater than that of any similar journal now published. It goes into all the States and Territories, and is read in all the principal libraries and reading rooms of the world. A business man wants something more than to see his advertisement in a printed newspaper. He wants circulation. This he has when he advertises in the SCIENTIFIC AMERICAN. And do not let the advertising agent influence you to substitute some other paper for the SCIENTIFIC AMERICAN when selecting a list of publications in which you decide it is for your interest to advertise. This is frequently done for the reason that the agent gets a larger commission from the papers having a small circulation than is allowed on the SCIENTIFIC AMERICAN.

For rates see top of first column of this page or address MUNN & CO., Publishers, 361 Broadway, New York.

GATES ROCK & ORE BREAKER Capacity up to 200 tons per hour. Has produced more ballast, road metal, and broken ore than all other Breakers combined. Builders of High Grade Mining Machinery. A New and Valuable Book.

12,500 Receipts. 708 Pages. Price \$5. Bound in Sheep, \$6. Half-Morocco, \$6.50.

This splendid Receipts and Replies given in the Notes and Queries of correspondents as published in the Scientific American during the past fifty years; together with many valuable and important additions.

Over Twelve Thousand selected Receipts are here collected; nearly every branch of the useful arts being represented. It is by far the most comprehensive volume of the kind ever placed before the public.

The work may be regarded as the product of the studies and practical experience of the ablest chemists and workers in all parts of the world; the information given being of the highest value, arranged and condensed in a concise form convenient for ready use.

Almost every inquiry that can be thought of, relating to formulae used in the various manufacturing industries, will here be found answered.

Instructions for working many different processes in the arts are given.

Those who are engaged in any branch of industry probably will find in this book much that is of practical value in their respective callings. Those who are in search of independent business or employment, relating to the home manufacture of sample articles, will find in it hundreds of most excellent suggestions. Send for Descriptive Circular. MUNN & CO., Publishers, SCIENTIFIC AMERICAN OFFICE, 361 Broadway, New York.
