Last year we commenced an elaborate plan of advertising, but before we were half through OUR ADVERTISERS DISAPPEARED. Why? Because WE WERE OVERWHELMED WITH BUSINESS. There was but one thing to do: withdraw the advertising and devote every energy to filling the orders with which we were flooded. This we did, and handled with reasonable promptness a most unprecedented year's business. WITH ENLARGED FACTORIES, INCREASED FACILITIES, AND TWENTY BRANCH HOUSES FROM WHICH TO DISTRIBUTE OUR GOODS, WE CAN NOW CARE FOR ALL WHO COME. Last year we could not reduce prices because we were compelled in some way to limit the demand for Aermotor goods. We would have been satisfied with lower prices, but why create a demand which we could not supply? We have made the heaviest purchases of steel and material bought in America this year, and at unprecedented prices, and have made terms to dealers which enable them to make unprecedented prices. In quality, character, variety, finish, and accessibility to full stock of goods and repairs, we are without competitors. In our plan of advertising last year, we proposed to furnish a feed cutter under certain conditions for \$15. For reasons stated above we did not complete the advertising, and the feed cutter was not put out. We now propose to make amends in the following manner: We will announce in this paper our NEW ALL-STEEL VERY SUPERIOR FEED CUTTER, WORTH

\$40 at \$10

cash with order, f. o. b. Chicago. Only one to one person, he to furnish addresses of ten neighbors who ought to have something in our line. Cut, description and full information regarding it will appear soon. We especially desire to excessive prices for windmill outfits. The temptation on the part of the dealer to overcharge is great. \$10 added to price is \$10 clear profit to the dealer. To be sure proper price and article will be protected. We are, and always have been, believers in low prices. Because of the prodigious output of our factories we are enabled to have special tools for each piece, and thus reduce the hand labor on it to merely picking up the material and laying it on the material which we mention. We have been material in the country; ing made up in the form of pliation windmills, towers pumps, etc. To such an and to such an extent has the price of our goods (and order competition impossible) that THE ONLY LARGE WINDMILL, CONCRETE AND WOOD THEIR TOWERS OF US THIS YEAR. THEY DO IT BECAUSE WE MAKE THE ONLY ABSOLUTELY RELIABLE AND SAFE TOWER; BECAUSE THEY CAN BUY OF US CHEAPER THAN THEY CAN BUY IN ANY OTHER PLACE. BECAUSE WE PREPARED TO GALVANIZE EVERYTHING AFTER IT IS COMPLETED, AND COMPLETE EVERYTHING EXACTLY RIGHT. These concerns are wise, for, even though they may not furnish the best of wheels, the wheel will have the best of supports. Send to your name and address, and those of your neighbors who may need something in our line, and thereby do them a good turn. The Aermotor Co. is one of the most successful business enterprises which has been launched in recent times. In succeeding advertisements will be discussed and made clear the lines on which that success has been worked out. It was done by a farmer's boy. A careful following of these advertisements may suggest to some other farmer's boy a career. Aermotor Co., 12th, Rockwell & Fillmore Sts., Chicago. Please mention SCIENTIFIC AMERICAN.
