DEER PARK,
On the Crest of the Alleghenies.

To those contemplating a trip to the mountains in search of health and pleasure, Deer Park, on the crest of the Allegheny mountains, 3,000 feet above the sea level, offers such varied attractions as a delightful atmosphere during both day and night, pure water, smooth, winding roads through the mountains and valleys, and the most picturesque scenery in the Allegheny range. The hotel is equipped with all adjuncts conducive to the entertainment, pleasure and comfort of its guests.

The surrounding grounds as well as the hotel are lighted with electricity. Six miles distant on the same mountain summit, is Oakland, the twin resort of Deer Park, and equally as well equipped for the entertainment and accommodations of its patrons. Both hotels are upon the main line of the Baltimore and Ohio Railroad, have the advantages of its splendid vestibuled Limited Express trains between the East and West. Season excursion tickets, good for return passage until October 31, will be placed on sale at greatly reduced rates at all principal ticket offices throughout the country. One way tickets, reading from St. Louis, Louisville, Cincinnati, Columbus, Chicago, and any point on the B. & O. system to Washington, Baltimore, Philadelphia or New York, or vice versa, are good to stop off at either Deer Park, Mountain Lake Park, or Oakland, and the time limit will be extended by agents at either resort upon application, to cover the period of the holder's visit.

The season at these popular resorts commences June 22nd.

For full information as to hotel rates, rooms, etc., address George D. DeSields, Manager, Deer Park, or Oakland, Garrett County, Md.

A REVOLUTION!!!
A New COTTON GIN
and **WOOL BURRER.**

Inventive genius has at last produced a machine that will send into retirement the old Saw Gin so long tolerated, owing to enormous development in the cotton industry. The Universal Cotton Gin and Wool Burrer Company are taking out patents in the principal countries, and make claim to superiority over the system now in use on the following among other points: The new Roller Gin will preserve the fibre intact; clean the seed more thoroughly, and thus save a large amount of cotton; prevent the possibility of fire; perform the work with a minimum of power; require comparatively no repairs; require but little if any cleaning, and have no saws to sharpen. They are the acme of simplicity in construction and effectiveness in economical working. The staple delivered in the most improved condition, with the least damage to fibre ever heretofore effected. Alfred B. Shepperson, of the Cotton Exchange, New York, recognized as foremost expert and authority in the cotton world, as attested by his services to the National Department of Agriculture, and the favorable reception accorded to his opinions and publications, is President of this Company; T. H. Pearce, Secretary; E. A. Kingman, Treasurer; and S. L. Johnston, Superintendent and Engineer. A hand machine and also full size power gins may be seen in operation. A limited amount of treasury stock is for sale. For full particulars address

UNIVERSAL COTTON GIN & WOOL BURRER CO.,
Room 60
FISKE BUILDING 89 STATE ST., BOSTON.

FUNDAMENTAL PRINCIPLES OF BUSINESS. Their Application in Practice. A lecture delivered in the Sibley College Course by T. Dunkin Paret. A very interesting presentation of the subject, full of practical suggestions as to the conditions necessary to obtain business and professional success. Contained in **SCIENTIFIC AMERICAN SUPPLEMENT**, Nos. 998 and 999. Price 10 cents each. To be had at this office and from all newsdealers.

GIOVANNI MINA, MANUFACTURER OF Piano Organs.
REPAIRING and TUNING.
19 SULLIVAN STREET, NEW YORK.

A Valuable Book

12,500 Receipts. 708 Pages. Price \$5.
Bound in Sheep, \$6. Half-Morocco, \$6.50.
This splendid work contains a careful compilation of the most useful Receipts and Replies given in the Notes and Queries of correspondents as published in the *Scientific American* during the past fifty years; together with many valuable and important additions.

Over Twelve Thousand selected Receipts are here collected; nearly every branch of the useful arts being represented. It is by far the most comprehensive volume of the kind ever placed before the public.
The work may be regarded as the product of the studies and practical experience of the ablest chemists and workers in all parts of the world; the information given being of the highest value, arranged and condensed in concise form convenient for ready use.
Almost every inquiry that can be thought of, relating to formulae used in the various manufacturing industries, will here be found answered.
Instructions for working many different processes in the arts are given.
Those who are engaged in any branch of industry probably will find in this book much that is of practical value in their respective callings.
Those who are in search of independent business or employment, relating to the home manufacture of sample articles, will find in it hundreds of most excellent suggestions.
