For the Pictorial and Literary Presentation of the Events of the Day

Harper's Weekly

TAKES THE LEAD.

In addition to its many other attractions, illustrated records of the achievements in . . .

SCIENCE AND ART

form a notable feature. During 1894 there have been capital articles on such topics as: . . .

- Chicago Drainage Canal.
- Recent Excavations at Dashur, Egypt.
- Gold Mines of Colorado.
- Need of a National Health Board.
- Electrical Industries.
- Cleansing the Streets of Paris.

Constant advancement in excellence is the chief guide in the direction of HARPER'S WEEKLY, and, with almost boundless resources, it will continue to treat every scientific event of public interest comprehensively and at the shortest notice.

Practical. Popular. Scientifically Exact.

Indispensable to all who love gardens or the literature of gardens; to all who own country places or take pleasure in rural scenery; to all who desire a broader knowledge of trees, shrubs, fruits, and flowers. GARDEN AND FOREST stands for the protection of natural beauty, for a purer taste in the design and decoration of public and private grounds. It is universally pronounced the best horticultural journal ever published for Americans.

"Wise, intelligent, entertaining."—Harper's Weekly.
 "Rich variety of remarkable engravings."—N. Y. Post.
 "Winning, delightful, and accurate."—N. Y. Tribune.
 "A compendium of new information."—N. Y. Herald.

Beautifully Illustrated. Weekly. \$4.00 per year.
 Specimen Copy Free on Application.

A Valuable Book

12,500 Receipts. 708 Pages. Price \$5.
 Bound in Sheep, \$6. Half-Morocco, \$6.50.

This splendid work contains a careful compilation of the most useful Receipts and Replies given in the Notes and Queries of correspondents as published in the Scientific American during the past fifty years; together with many valuable and important additions.

Over Twelve Thousand selected Receipts are here collected; nearly every branch of the useful arts being represented. It is by far the most comprehensive volume of the kind ever placed before the public.

The work may be regarded as the product of the studies and practical experience of the ablest chemists and workers in all parts of the world; the information given being of the highest value, arranged and condensed in concise form convenient for ready use.

Almost every inquiry that can be thought of, relating to formulae used in the various manufacturing industries, will here be found answered.

Instructions for working many different processes in the arts are given.

Those who are engaged in any branch of industry probably will find in this book much that is of practical value in their respective callings.

Those who are in search of independent business or employment, relating to the home manufacture of sample articles, will find in it hundreds of most excellent suggestions.

Send for Descriptive Circular.

MUNN & CO., Publishers, SCIENTIFIC AMERICAN OFFICE, 361 Broadway, New York.
