In the new matter contained in the last edition will be found the Scientific Use of the Phonograph, the curious optical illusion known as the Anorthoscope, together with other new and interesting Optical Illusions, the Optical Projection of Opaque Objects, new experiments in Projection, Iridescent Glasses, some points in Photography, including Hand Cameras, Cane Cameras, etc.; Systems of Electrical Distribution, Electrical Ore Finder, Electrical Rocker, Electric Chimes, How to Color Lantern Slides, Study of the Stars, and a great deal of other new matter which will prove of interest to scientific readers. 840 pages, 182 fine cuts, substantially and beautifully bound. Price in cloth, by mail, \$4. Half morocco, \$5. Send for illustrated circular. MUNN & CO., Publishers, Office of the SCIENTIFIC AMERICAN, 361 BROADWAY, NEW YORK.

HOW DID IT GAIN THE NAME OF "The Light Running Densmore"? Because, in actual operation, owing to the compound leverage, the fingers in striking the keys GRADUALLY, INSTEAD OF SUDDENLY, overcome the inertia of the typebars. This principle is made exceedingly clear by illustrations in our free pamphlet. Adopted by the U. S. War Department in 1883. Government contract renewed in 1894. Supplied Densmores to the Government Land Offices throughout the U. S. in 1895. First Densmore purchased by the Carnegie Steel Co. in 1892; they now own 33. DENSMORE TYPEWRITER CO., 316 Broadway, New York.

PUMPS FOR COMPRESSING OXYGEN & HYDROGEN GASES INTO CYLINDERS BY HAND POWER. PRICE \$15.00 SEND FOR CATALOGUE No 2 TO CHAS. BESELER, 218 CENTRE ST. NEW YORK.

Price 10 cents. To be had at this office and from all newsdealers.

Star Maps By Richard A. Proctor, F.R.A.S. A series of twelve elegantly printed Maps of the Heavens, one for every month in the year. Specially prepared for use in North America. With descriptions accompanying each map, giving the names of the principal stars and constellations, showing their relative positions at given hours and days of the month. A most beautiful and convenient work, specially adapted for the use of those who desire to acquire a general knowledge of the starry realms. To which is added a description of the method of preparing and using artificial luminous stars as an aid in fixing in the mind the names and places of the various stars and constellations, by Alfred E. Beach. Altogether this is one of the most popular, useful and valuable works of the kind ever published. One quarto volume, elegantly bound in cloth. Price \$2.50, postpaid. MUNN & CO., Publishers, 361 Broadway, New York.
