HOW DID IT GAIN THE NAME OF "The Light Running Densmore"?

Because, in actual operation, owing to the compound leverage, the fingers in striking the keys GRADUALLY, INSTEAD OF SUDDENLY, overcome the inertia of the typebars.

This principle is made exceedingly clear by illustrations in our free pamphlet. . . .
Adopted by the U. S. War Department in 1893. Government contract renewed in 1894. Supplied Densmores to the Government Land Offices throughout the U. S. in 1893. First Densmore purchased by the Carnegie Steel Co. in 1892; they now own 33.
