To Those Intending Building

To insure a perfect and permanent finish on all natural interior woodwork the use of the WHEELER PATENT WOOD FILLER is essential. It leaves the wood pores transparent. AN OUTSIDE PAINT that outlasts lead and oil paints, is BREINIG'S LITHOGEN SILICATE PAINT, especially adapted for buildings exposed to salt air.

Architects and owners, in their own interests, should see their specifications carried out in full, and examine bills for the articles specified before accepting work as satisfactory.

References—Most of the leading architects throughout the U. S. Sole manufacturers of the above articles.

NOW IS THE TIME TO SUBSCRIBE

—FOR THE—
SCIENTIFIC AMERICAN
ESTABLISHED 1845.
The most popular Scientific Paper in the World
The SCIENTIFIC AMERICAN has been issued every week by the present publishers for a period of over fifty years. It is the only Journal published in this country which is devoted to a general treatment of the development of the sciences, arts and manufactures. Each issue is embellished with numerous illustrations showing great engineering works, the most recent inventions in bicycles and motor carriages, new forms of machinery, photography, the latest additions to the navy, new guns, locomotives, etc., sixteen pages each week. Many of our patrons have been on our subscription books for a period of thirty or forty years, and we often receive letters from old readers stating that owing to a careful reading of the paper since boyhood, they owe their success in life more to having had the SCIENTIFIC AMERICAN as their constant friend and companion than to any other one cause.

The SCIENTIFIC AMERICAN should have a place in every dwelling, shop, office, school or library. Workmen, foremen, engineers, superintendents, directors, presidents, officials, merchants, farmers, teachers, lawyers, physicians, clergymen—people in every walk and profession in life, will derive satisfaction and benefit from a regular reading of the SCIENTIFIC AMERICAN.

As an instructor for the young it is of peculiar advantage. Try it.—Subscribe for yourself—it will bring you valuable ideas; subscribe for your sons—it will make them manly and self-reliant; subscribe for your workmen—it will please and assist their labor; subscribe for your friends—it will be likely to give them a practical lift in life. A yearly subscription to the Scientific American is a most acceptable holiday gift to a son or a friend.
