**TO INVENTORS.**  
 An experience of nearly fifty years, and the preparation  
 of more than one hundred thousand applications for pa-  
 tents at home and abroad, enable us to understand the  
 laws and practice on both continents, and to possess un-  
 equalled facilities for procuring patents everywhere. A  
 synopsis of the patent laws of the United States and all  
 foreign countries may be had on application, and persons  
 contemplating the securing of patents, either at home or  
 abroad, are invited to write to this office for prices,  
 which are low, in accordance with the times and our ex-  
 tensive facilities for conducting the business. Address  
**MUNN & CO.,** office SCIENTIFIC AMERICAN, 361 Broad-  
 way, New York.

**Marks' Patent Artificial Limbs**

Have been indorsed by the Scientific American from 1853 to 1896, as illustrated below. . . . .

They have stood the tests of nearly half a century. They are to-day pre-eminent throughout the world.

NEW PATENTS OF 1895 AND IMPORTANT IMPROVEMENTS.

Marks' Patent Artificial Limbs with Rubber Hands and Feet are Natural in Action, Noiseless in Motion, and the Most Durable in Construction. The use of rubber hands and feet on artificial limbs simplifies the construction, so that limbs can be worn for many years without requiring repairs. Persons engaged in every conceivable occupation operate with them to great advantage. Over 17,000 in use, scattered in all parts of the world. Eminent surgeons and competent judges commend the Rubber Foot and Hand for their many advantages. At every industrial exhibition where exhibited they have received the highest awards. They are indorsed and purchased by the United States and Foreign Governments. A treatise, containing 430 pages, with over 300 illustrations, sent free. Also a formula for taking measurements by which limbs can be made and sent to all parts of the world, with fit guaranteed. Address

A. A. MARKS, 700 BROADWAY, NEW YORK CITY.
