The Waverley Bicycle

\$100 \$60 The Waverley Bicycle for 1897 is the acme of bicycle construction. New and expensive principles of construction involved make the cost of building enormous. Hence the price is \$100.

The only bicycle with true bearings

Last year the Waverley was as good as any wheel in the market—better than most. Because new machinery was not needed for its continued construction, the price of the improved 1896 model has been reduced to \$60—a saving of \$25 to you. Catalogue Free. Indiana Bicycle Co., Indianapolis, Ind.

Japanese Patents Trade Marks.

PRESIDENT MCKINLEY, on March 9, issued a proclamation promulgating the treaty recently ratified between the governments of Japan and the United States providing for the reciprocal protection of Patents, Trade Marks and Designs in those countries.

Citizens of the United States may now obtain patents in Japan. Japan has been very active in adopting American and European inventions; and as patents heretofore have been granted only for inventions made by native Japanese, the foreign inventor could not obtain protection, foreign inventions becoming public property as soon as publication had taken place. Foreigners may now obtain Japanese patents, provided the application is filed before the invention becomes publicly known or used in Japan. The population of Japan is estimated at about forty-five millions. For further particulars, cost, etc., apply to Messrs. MUNN & COMPANY, 361 Broadway, New York City.
