**ACETYLENE APPARATUS.**—ACETYLENE number of the SCIENTIFIC AMERICAN SUPPLEMENT, describing with full illustrations, the most recent, simple, or home made and commercial apparatus for generating acetylene on the large and small scale. The gas as made for and used by the microscopist and student; its use in the magic lantern. The new French table lamp making its own acetylene. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 1037. Price 10 cents. To be had at office.

**Dragnet Perfect.** New—because radically unlike any other. Great—because the same drawing allows a flexible, rigid, direct-slack, long-link and short-link coupling, and will couple automatically with all of them. It can therefore be used in nearly all kinds of lifting, holding, and drawing, and specially adapted to the use of Trolley Cars, Traction Engines, and Field Artillery. A full size working model, with attachments, will be on exhibition the third Wednesday of each month at No. 303 Elliott Square, Buffalo, N. Y.
