 Roll Thread. Gimlet Point.
 All Sizes. Send for Circular.
BLAKE & JOHNSON,
 P. O. Box 7, Waterbury, Conn., U. S. A.

SPECIAL WIRE MACHINERY
 DESIGNED AND BUILT.
 (Mr. J. N. DENNIS in charge of this department.)
 Patterns designed for difficult Castings of Steel and Malleable Iron a Specialty.
AMERICAN WIRE GOODS CO., - LOWELL, MASS.

The Van Norman Universal Bench Lathe.
 A Lathe, Milling Machine, Screw Cutter and Universal Grinder in one tool. The best tool made for all kinds of small work. Made by Waltham Watch Tool Co., Springfield, Mass.
 Send for Catalogue

ELECTRO MOTOR. SIMPLE HOW TO MAKE. By G. M. Hopkins.—Description of a small electro motor device and constructed with a view to assisting amateurs to make a motor which might be driven with advantage by a current derived from a battery, and which would have sufficient power to operate a foot lathe or any machine requiring not over one man power. With 11 figures. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 641. Price 10 cents. To be had at this office and from all newsdealers.

ONLY ALL WROUGHT STEEL Belt & Pulley
 in the World. Unbreakable, very light. Positively safe. Extremely high speeds. Perfectly balanced any speed. Cheap first cost and low power saver. Steel bushings to fit any shaft. Up-to-date dealers will secure territory. For price and description, write to
A. M. HICKMAN PULLEY CO.,
 18th and Hamilton Sts., Phila., Pa.
 See SCIENTIFIC AMERICAN, Feb. 6, 1897, page 84.

TRANSITS AND LEVELING INSTRUMENTS. NICKEL PLATED ELECTRIC LEVELS
 C. F. Richardson, Athol, Mass.
 Sizes, 2 and 3 inches. Prices, 25 and 30 cents.
 For Book on the Level, P. O. Box 977, Athol, Mass., U. S. A.

"QUEEN" ARCHITECT LEVEL \$50
 Improved Transits and Levels graduated entirely on our large dividing engine. Special award at the World's Fair. All kinds of Engineering, Surveying and Drafting Instruments and Materials. 220 p. Illustrated catalogue mailed free only if this ad. is mentioned.
QUEEN & CO., Inc.,
 1011 Chestnut St., Philadelphia.

THE CARBIDES AND ACETYLENE
 Commercially Considered.—By T. L. Wilson and J. J. Luckert, Ph. D. A consideration of the carbides and acetylene from a commercial point of view, preceded by a brief history of these compounds, the methods of their formation, and their chemical and physical properties. With 10 illustrations. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, Nos. 1015 and 1016. Price 10 cents each. To be had at this office and from all newsdealers.

THE BILLINGS HAND VISE
 The Best Vise for Linemen.
 Drop Forged from Bar Steel. Interchangeable Parts. Parallel Jaws. Hardened by Special Process.
 Send for Circular H. V.
THE BILLINGS & SPENCER CO.,
 Drawer 3, Hartford, Conn.

On receipt of ten cents in stamps (practically 25% of retail price) we will send you one of our
1/2-INCH AUGER BITS
 A fine cutting tool, perfect clearance, especially good in hard wood and for end boring.
 Send for Circulars "S. A." Free.
THE FORD BIT CO., HOLYOKE, MASS.
 Send for description of our new
No. 4 Foot Wheel
 Useful to the Bicycle Repairer.
W. W. OLIVER,
 1480 Niagara Street, Buffalo, N. Y.

CAUSE OF LUMINOUSITY IN THE FLAMES OF THE HYDROCARBON GASES.—By Prof. Vivian E. Lewis. An important paper in which the author endeavors to show that the luminosity of hydrocarbon flames is due to the localization of the heat of formation of acetylene in the carbon and hydrogen produced by its decomposition, and the cause of such localization. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, Nos. 1012 and 1013. Price 10 cents each. To be had at this office and from all newsdealers.

KRAFTUBERTRAGUNGSWERKE RHEINFELDEN. Society for the Utilization of the Water Power of the Rhine in Biele, Switzerland. 11,500 H. P. NOW AVAILABLE. TO BE INCORPORATED IN 10,000 H. P. The Company is in a position to let electric energy at exceptionally cheap rates and the most favorable terms. They also offer to applicants wishing to establish themselves near the works, suitable land on either the German (Badish) or the Swiss side of the Rhine, in the vicinity of important railway lines. Cheap labor.
 For further information please address The Manager, Kraftubertragungswerke, Rheinfelden, Switzerland.

The Milwaukee Water Elevator
 (OR HYDRAULIC MOTOR).
 For Raising Cistern Water and Increasing City Water Pressure for High Buildings.
NO TANKS REQUIRED.
 Send for Circular.
THE ERWIN HYDRAULIC MACH'Y CO.,
 58 Loan & Trust Bldg., Milwaukee, Wis.

HOUTS AUTOMATIC TELEPHONE SWITCHES
 Some of its advantages: 1st. It is strictly automatic. 2d. It completely does away with the "manual" switchboard. 3d. Connection between subscribers is direct and instantaneous. 4th. No central office operator to hear, delay, or interrupt conversations. 5th. Uniform and uninterrupted service at all hours of day or night.
 This appliance is sold outright or leased, at option of customer, and fully warranted.
 Send for illustrated circular S. A. to Houts Automatic Telephone Switch Co., Parker, So. Dakota, U. S. A.

BUY TELEPHONES
 That Are Good--Not "Cheap Things"
 The difference in cost is little. We guarantee our apparatus and guarantee our customers against loss by patent suits. Our guarantee and instruments are Both Good
WESTERN TELEPHONE CONSTRUCTION CO.,

50 YEARS' EXPERIENCE.
PATENTS
 TRADE MARKS, DESIGNS, COPYRIGHTS &c.
 Anyone sending a sketch and description may quickly ascertain, free, whether an invention is probably patentable. Communications strictly confidential. Oldest agency for securing patents in America. We have a Washington office. Patents taken through Munn & Co receive special notice in the
SCIENTIFIC AMERICAN,
 beautifully illustrated, largest circulation of any scientific journal, weekly, terms \$3.00 a year; \$1.50 six months. Specimen copies and HAND BOOK ON PATENTS sent free Address
MUNN & CO.,
 361 Broadway, New York.

SCREW-CUTTING DIE HEADS
 SELF-OPENING AND ADJUSTABLE.
 The best die head on the market. Some advantages over "others," viz.: They are smaller, stronger, more compact, have no levers to spring, cannot be clogged by chips, are always reliable, and the prices are right. Send for descriptive circular "S. A." Our die heads are furnished in sizes suitable for cutting threads from No. 17 wire gauge to 6 inches diameter inclusive.
GEOMETRIC DRILL CO., NEW HAVEN, CT.
 EUROPEAN AGENTS: CHAS. CHURCHILL & CO., London, England; WHITE, CHILD & BERRY, Vienna, Austria.

Revolution in Engraving.
 Hand engravers are backward as MS. writers were before Caxton's time. They redesign each letter every time they cut it. We saw this ten years ago and followed it up. From suitable designs once made our latest patent
Engraving Machine
 cuts lettering and designs, raised or sunk, on any material that can be cut. Better work and quicker at a tenth the cost of hand work. All sorts of people use them. Brass and general engravers, seal stamp and type makers, instrument makers, engineers, railways, government works and arsenals. Send for an illustrated Booklet to Taylor, Taylor & Hobson, Slate Street Works, Leicester, England. U. S. patents for license or sale.

ROTARY ENGINES.

The various efforts that have been made by inventors during several generations to overcome the defects of this form of motor were discussed in a series of articles published in the

Scientific American Supplement, Nos. 1109, 1110, and 1111, issues dated April 3d, 10th, and 17th, 1897. These articles give the history and development of the Rotary Engine from the year 1588 to the present day. The engravings which accompany the article have been prepared from works on the subject of Rotary Engines and from patent drawings of recent inventions, many of them showing devices of the greatest ingenuity and interest. Copies 10 cents each.
