

Notes & Queries

HINTS TO CORRESPONDENTS.

Names and Address must accompany all letters or no attention will be paid thereto. This is for our information and not for publication.

(7389) E. A. L. asks: Will you publish a formula and directions for making library paste? A. 1. Tragacanth, 1 ounce; gum arabic, 4 ounces; water, 1 pint.

(7390) F. H. B. writes: I am trying to make dynamo out of the simple electric motor 641, also in "Experimental Science," and would like you to inform me what size wire and how many turns will I wind on each coil of magnet.

(7391) A. S. asks: I wish to get the eighty feet of tin foil 1 inch wide for the condenser of the coil described in SUPPLEMENT, No. 160, also the glass tubes and egg shaped vessels described in SUPPLEMENT, No. 166?

(7392) G. N. M. asks: Is black considered a color by itself, generally speaking? In what relation does it stand to other colors? A. In a strict sense black is not a color.

TO INVENTORS.

An experience of fifty years, and the preparation of more than one hundred thousand applications for patents at home and abroad, enable us to understand the laws and practice on both continents, and to possess unequalled facilities for procuring patents everywhere.

INDEX OF INVENTIONS

For which Letters Patent of the United States were Granted

MARCH 29, 1898,

AND EACH BEARING THAT DATE.

[See note at end of list about copies of these patents.]

- Acids, apparatus for concentrating, E. Hart 601,466
Acids, apparatus for manufacturing, G. P. Adamson 601,457
Air brake, W. O. Gunckel 601,253

Advertisements.

ORDINARY RATES.

Inside Page, each insertion, - 75 cents a line
Back Page, each insertion, - \$1.00 a line

For some classes of Advertisements, Special and Higher rates are required.

The above are charges per agate line—about eight words per line. This notice shows the width of the line, and is set in agate type. Engravings may be had at the same rate per square line, by measurement, as at the type press. Advertisements must be received at Publication Office as early as Thursday morning to appear in the following week's issue.

WOOD or METAL WORKERS
without steam power can save time and money by using our Foot and Hand Power Machinery
SEND FOR CATALOGUES—
A—Wood-working Machinery.
B—Lathes, etc.

Williams' Shaving Soap (Barbers'), 6 Round Cakes, 1 lb., 40 cts. Exquisite also for toilet. Trial cake for 2c. stamp.

Labor or Steam

wasted in your plant? Suppose you had a hundred men on your pay roll, and fifteen to thirty doing nothing—"air punchers"—how long before you would weed them out? Yet, that's your proportion of loss in power when you run a plant without the "Heintz" Steam Trap.

Automatic, silent, economical, lasts a lifetime. Only six parts besides the case—can't wear out. No levers, floats, air valves or theories—just plain mechanics. Sent on thirty days' trial on request. Booklet "H" will finish the story. Want it?

William S. Haines Company, 136 South Fourth St. Philadelphia.

"The Heintz, the best, tho' it has imitators"

DORMAN'S VULGANIZERS
are used all over the world.
Exclusive Manufacturers of Steam Machines for Rubber Stamps. We also make Dry Heat Vulcanizers. Complete outfits from \$10 to \$1,000. All Stamp and Stencil Tools and Supplies.
