## Notes &amp; Queries

## HINTS TO CORRESPONDENTS.

Names and Address must accompany all letters or no attention will be paid thereto. This is for our information and not for publication.  
 References to former articles or answers should give date of paper and page or number of question.  
 Inquiries not answered in reasonable time should be repeated: correspondents will bear in mind that some answers require not a little research, and though we endeavor to reply to all either by letter or in this department, each must take his turn.  
 Buyers wishing to purchase any article not advertised in our columns will be furnished with addresses of houses manufacturing or carrying the same.  
 Special Written Information on matters of personal rather than general interest cannot be expected without remuneration.  
 Scientific American Supplements referred to may be had at the office. Price 10 cents each.  
 Books referred to promptly supplied on receipt of price.  
 Minerals sent for examination should be distinctly marked or labeled.

(7649) P. H. W. asks: 1. What causes the report when a cannon is fired? A. The liberation of the powder gases at the muzzle of the gun. 2. Does the report obtain at the moment the projectile leaves the muzzle of gun? A. Yes. 3. Does the recoil take place before the ball is half way out of the gun? A. Recoil commences at the instant when the projectile begins to move down the bore. 4. Does the force of the powder gas exert itself up to the moment the shot leaves the muzzle? A. Yes. 5. Does the air in front of the projectile, when the gun is fired, offer much resistance to projectile when same is near the muzzle of gun? A. The air is expelled from the bore by the projectile and offers resistance during the whole travel of the projectile through the bore.

(7650) T. C. writes: In answer to query No. 7618, March 25, "Is it possible for a man to know the direction in which he is going if he were inclosed in a box with nothing except a compass?" I understand H. J. D. to mean the box to move carrying the occupant with it. If the box were placed on a car, with the occupant not knowing to which end the locomotive was attached, he could not tell in which direction he was moving, even with the aid of a compass. The compass tells or shows you the name of the direction you are moving. You must know the direction by observation. A. Query 7618 was answered with the understanding that the correspondent wished to know if a compass needle would indicate direction when inclosed in a box. This seemed to us to be the only reason for referring to the compass at all. Several other correspondents have written us, suggesting that the meaning of the question is, Can a man tell in what direction he is being carried, if he cannot see? This question requires no compass. To this question we answer, we do not know any general answer. We think some men can. We are sure others cannot.

(7651) J. B. A. writes: Please state fully through your interesting paper how scientific men determine the sun's distance. When and where were the last measurements taken? Is 91,800,000 miles the average distance, or the distance when the earth is nearest the sun? Is the above distance correct? A. One of the earlier methods for finding the solar parallax that were in any way reliable was that of Halley, by transits of Venus. From observations of the transits of Venus in 1761 and 1769 Laplace and Delambre computed the parallax or angle of the earth's diameter as seen from the sun to be 86" to 88", making by triangulation a distance of 95,000,000 and 92,890,000 miles. Hansen, by his researches upon the motion of the moon in 1854, corrected Enckes' computation made in 1824, making the sun's distance 91,852,000 miles. The latest discussion by Newcomb from all the previous observations, including the velocity of light as observed by Michelson, has established the solar parallax at 8.85", which has been adopted and used in the computations for the Nautical Almanacs. It is based on Clarke's value of the earth's radius of 3960 miles, making the sun's distance 91,372,000 miles. The Paris Astronomical Conference, in 1896, adopted 8.8" as the value of the solar parallax, and after the year 1900 this is to be used by all nations for their nautical almanac computations. It makes the sun's mean distance 92,897,000 miles. A description of the various methods that have been used for determining the parallax, which is a most interesting one, giving diagrams and formulas that we cannot produce in Notes and Queries, is contained in a chapter in Young's "General Astronomy," which we can furnish mailed at \$3.

## NEW BOOKS ETC.

**THE PURIFICATION OF SEWAGE.** A Brief Account of the Scientific Principles of Sewage Purification and their Practical Application. By Sidney Barwise, M.D. New York: D. Van Nostrand Company. 1899. Pp. i-xii, 150. Price \$2.

The present volume is a small book upon a large subject, but there is no objection to this when a book is of a high technical quality like the volume before us. The chemistry of sewage, the varieties of sewage, and the changes it undergoes, as well as river pollution, rain treatment, precipitation, filtration, are all adequately treated in addition to the new departure, "bacteriology."

**ELECTRICITY IN TOWN AND COUNTRY HOUSES.** By Percy E. Scrutton. Second Edition. Westminster, London: Archibald Constable & Company. 1898. Pp. 148. Price \$1.

This little book will doubtless prove valuable to those who wish to get some general information about the subject, and who do not care to go very deeply into it. The book does not call for special mention.

**THE DAWN OF REASON; OR, MENTAL TRAITS IN THE LOWER ANIMALS.** By James Weir, Jr., M.D. New York: The Macmillan Company. London: Macmillan & Company, Limited. 1899. Pp. 234. Price \$1.25.

Dr. Weir is already known to the readers of the SCIENTIFIC AMERICAN by reason of his numerous articles of high scientific value. In "The Dawn of Reason" he deals with such subjects as "The Senses in the Lower Animals," "Conscious Determination," "Memory," "The Emotions," "Aestheticism," "Parental Affection," "Reason," and others. It is a rather difficult book to classify, but it is a very readable one, and is worthy of attention by all who are interested in any way in natural history or psychology, and shows that the author is an original thinker.

**STEAM BOILER PRACTICE.** In its Relation to Fuels and their Combustion and the Economic Results Obtained with Various Methods and Devices. By Walter B. Snow, S.B. First Edition, First Thousand. New York: John Wiley & Sons. London: Chapman & Hall, Limited. 1899. Pp. 297. Price \$3.

There always seems to be room for a new book on steam boilers. Hardly a month goes by without one coming to the editor's table. The book before us treats of the subject in a somewhat different manner to books which have preceded it. It deals particularly with the results obtained, rather than with a detailed description of the methods and devices employed to secure the economical combustion of fuel in connection with a steam boiler. The appears to be ample room for a work which, while simple in its treatment, shall deal primarily with effect rather than with causes, and which shall undertake to indicate the possible gain or loss to result from a given arrangement and shall point toward the highest efficiency in steam boiler practice. The author has performed his task in a very creditable manner.

**HARDWARE STORE BUSINESS METHODS.** Compiled and Edited by R. R. Williams, Hardware Editor of The Iron Age. New York: David Williams Company. 1899. Pp. 200. Price \$1.

Business nowadays has been brought to such a fine point that the merchant has actually to be taught methods of business, and no up-to-date merchant will hesitate about accepting methods which will tend to decrease his expenses or render his accounts more accurate. It would be gratifying if every kind of business should have a manual such as is now offered to those in the hardware trade. It is a book which can be confidently commended.

**ENGINEERS' HANDY BOOK.** Containing Facts, Formulas, Tables, and Questions on Power, its Generation, Transmission, Measurements, etc. By Stephen Roper. Revised and greatly enlarged by Edwin R. Keller and Clayton W. Pike. Philadelphia: David McKay. 1899. 16mo. Pp. 844. Profusely illustrated. Pocketbook style, full leather, gilt edges. Price \$3.50.

The great value of Roper's well known pocketbook is evidenced by its being in its fifteenth edition. We have yet to learn that any poor book has reached anything like this sale. It is filled with the most valuable information, giving exactly what the engineer, and, specially, the young engineer wishes to know. Mathematics are avoided as far as possible, and all of the problems in the book can be solved with the aid of arithmetic. The book is thoroughly practical, and, for this reason, it appeals to all practical men. There are a large number of questions annexed which will prove of great value to young men who are anxious to obtain engineers' licenses. The boiler, the steam engine, the steam engine indicator, gas and gasoline engines, materials, their properties and strength, are all considered. There is a discussion of experiments in electricity and an explanation of the dynamo, motor, batteries, switchboard, telephones, bells, annunciators, alarms, etc. The book is got out in very handsome form and can be carried in the pocket. It is a most admirable book.

**THE A B C UNIVERSAL COMMERCIAL ELECTRIC TELEGRAPHIC CODE.** Specially adapted for the use of Financiers, Merchants, Shipowners, Brokers, Agents, etc. By W. Clauson-Thue. New York: The American Code Publishing Company, 83 Nassau Street. 1899. 8vo. Pp. 480. Price \$5.

A telegraphic code is absolutely indispensable in commercial transactions where the telegraph or cable is utilized, and there are a vast number of systems in use. The A B C code has an enviable reputation for being one

of the most usable, and it certainly appears to be the most flexible. The present edition contains nearly 25,000 sentences, including names for products, rates, numbers, quantities, and a large number of special words which may be used by the owner of the volume for special purposes. The selection and arrangement is most admirable.

**METEOROLOGICAL OBSERVATIONS.** Made at the Adelaide Observatory and Other Places in South Australia and the Northern Territory during the Year 1895. Under the Direction of Charles Todd. Published by authority of the Government of South Australia. Adelaide: Printed by C. E. Bristow, Government Printer, North Terrace. 1898. Pp. 75.

**THE HISTORY OF MANKIND.** By Prof. Friedrich Ratzel. Translated from the Second German Edition by A. J. Butler. With Introduction by E. B. Tylor. With colored plates, maps, and illustrations. Vol. III. London: Macmillan & Company, Limited. New York: The Macmillan Company. 1898. Pp. 599. Price \$4.

Prof. Ratzel is known to be one of the greatest ethnologists in the world, and his book shows a wonderful advance over its predecessors, such as Pritchard, Smith, Wood, etc. The present volume (III.) deals with the negro races in the interior of Africa and the west of Africa. Then the cultured races of the Old World are taken up, including the races of Africa and Asia, and finally the Europeans. The publishers have brought out the volume in a most sumptuous form. It is profusely illustrated, and there are eleven colored plates and several maps. The quality of the illustrations deserves particular mention, for too often in books of this kind the question of illustration is disregarded, owing to the great expense, and it is satisfactory to see the life work of a great authority properly clothed. The book can be most warmly commended to all who are in any way interested in ethnology, and we regard it as one of the most remarkable contributions which have been made to the subject. We hope to give an illustrated review of this great book in our SUPPLEMENT at some future time.

**A TREATISE ON PHOTOGRAPHIC OPTICS.** By R. S. Cole, M.A. New York: D. Van Nostrand Company. 1899. 12mo. Pp. 330. Price \$2.50.

A new work on this subject has been needed for some time, and the author has admirably acquitted himself of a difficult task. The object of the treatise is to provide an account of the principles of optics in so far as they apply to photography. The error of making it too abstruse, which would place it out of the reach of all but professional mathematicians or physicists, has been avoided. To make the mathematics as intelligible as possible, most of the results have been illustrated by worked numerical examples.

**LATEST SCIENCE.** J. E. Harvey, Moscow, Idaho. Price 10 cents.

A new law in chemistry, claiming verification from action in double star systems. Curious conclusions from peculiar premises.

## TO INVENTORS.

An experience of fifty years, and the preparation of more than one hundred thousand applications for patents at home and abroad, enable us to understand the laws and practice on both continents, and to possess unequaled facilities for procuring patents everywhere. A synopsis of the patent laws of the United States and all foreign countries may be had on application, and persons contemplating the securing of patents, either at home or abroad, are invited to write to this office for prices, which are low, in accordance with the times and our extensive facilities for conducting the business. Address MUNN & CO., office SCIENTIFIC AMERICAN, 361 Broadway, New York.

## INDEX OF INVENTIONS

For which Letters Patent of the United States were Issued for the Week Ending

APRIL 18, 1899,

AND EACH BEARING THAT DATE.

[See note at end of list about copies of these patents.]

Advertising appliances, etc., means or apparatus for producing and exhibiting animated or changing pictures on, W. Friese-Greene.....	623,242
Advertising purposes, apparatus for, A. M. Marsden.....	623,486

## Advertisements.

## ORDINARY RATES.

Inside Page, each insertion, - 75 cents a line  
 Back Page, each insertion, - \$1.00 a line  
 For some classes of Advertisements, Special and Higher rates are required.

The above are charges per agate line—about eight words per line. This notice shows the width of the line, and is set in agate type. Engravings may be had at advertisement rates at the same rate per agate line, by measurement, as the letter press. Advertisements must be received at Publication Office as early as Thursday morning to appear in the following week's issue.

**Star** ★ Screw...  
 ...cutting  
**Lathes** Automatic  
 Cross feed  
 9 and 11-inch Swing.  
 New and Original Features  
 Send for Catalogue B.  
 Seneca Falls Mfg. Company,  
 695 Water St., Seneca Falls, N. Y.

**POWER & FOOT LATHES.** SHAPERS, PLANERS, DRILLS, MACHINE SHOP OUTFITS, TOOLS AND SUPPLIES. SEBASTIAN LATHE CO. 120 CULVERT ST. CINCINNATI, O.

## ROCK DRILLS

**AIR COMPRESSORS**  
 SIMPLEST, MOST EFFICIENT and DURABLE.

**RAND DRILL CO.**

Send for Catalogue. 100 Broadway, New York.

NEVERSLIP  
 TRADE MARK.

## Bar Belt Dressing

It gives a smooth, pliable and adhesive surface, and saves Belts, Power and Wear of Machinery Bearings. Also adapted to Canvas and Rubber Belts. Box of 12 Bars, \$3.00, sent on Trial.

**The White & Bagley Co.,**  
 Worcester, Mass., U. S. A.

## The Forbes Patent Die Stocks for Hand or Power.

It can be used as a power machine in the shop or taken from the base and carried out as a hand machine.

Send for Descriptive Catalogue.

**CURTIS & CURTIS,** No. 78 H. or P. Machine  
 6 Garden St., Bridgeport, Conn. Range 2½ to 4" R. H.

## Water Emery Tool Grinder

Has no pumps, no valves. No piping required to supply it with water. Always ready for use. Simplest in construction, most efficient in operation.  
 Send for catalogue and prices.  
**W. F. & JNO. BARNES CO.**  
 1999 Ruby St., Rockford, Ill.

## WOODWORKING MACHINERY.

For Planing Mills, Carpenters, Builders, Furniture, Chair, Vehicle, Wheel and Spoke Makers, etc.  
 Correspondence Solicited.  
 Illustrated 312-page Catalogue free to manufacturers and foremen.

**THE EGAN CO.**  
 327 to 347 West Front Street, CINCINNATI, OHIO.

## New Microscope for Nature Study

and for use in the Examination of Ores, Metals, Woods, Fibre, etc.  
**Queen Acme No. 6** with 1 Ocular and 1 in. objective giving power of about 100 diameters, 1 set of 12 prepared slides of insect parts and other interesting specimens, all in case, \$10.00.  
 Ask your nearest Optician for it.  
**QUEEN & CO., INC.**  
 Optical and Scientific Instrument Works,  
 1010 Chestnut St., Phila., Pa.  
 59 Fifth Ave., New York.

## "A Tome That Tells of Tools."

All about every known Tool, large and small, and its uses, size, weight, and present market price. Every Tool described and illustrated by fine and accurate cuts. Send at once for **MONTGOMERY & CO.'S** thoroughly up to date **TOOL CATALOGUE** for 1898. 50 pages with index. Pocket size 6x9½, rounded edges and stitched covers. Every foreman of workshop or factor should have a copy. Mailed for 25 cents by  
**MONTGOMERY & CO.**  
 105 Fulton Street, New York.

## PRESSES, DIES and Special Machinery

For Sheet Metal Workers.  
**West Mfg. Co., Buffalo, N. Y., U. S. A.**

If you want the best CHUCKS, buy Westcott's

Little Giant Double Grip Drill Chucks, Little Giant Drill Chucks, Improved, Oneida Drill Chucks, Cutting-off Chucks, Scroll Combination Lathe Chucks, Geared Combination Lathe Chucks, Plain Universal Lathe Chucks, Independent Lathe Chucks. Made by Westcott Chuck Co., Oneida, N. Y., U. S. A. Ask for catalogue in English, French, Spanish or German. FIRST PRIZE AT COLUMBIAN EXPOSITION, 1893.

**THE HARRINGTON & KING PERFORMING CO.**  
 PERFORATED SHEET-METALS MILLING & MINING MACHINERY  
 WE SUPPLY WHAT YOU WANT ANY THICKNESS, METAL, SIZE, SHAPE, OR HOLE.  
 225 NORTH UNION ST. CHICAGO, ILL. U. S. A.

**Some Engines and Pumps develop 33 per cent less power than they should because the engineer thinks it's cheaper to use ordinary packing instead of "Daniel's Perfect Piston Packing" (P. P. P.)**

**Quaker City Rubber Co.** 409 Market St. Philadelphia.

Send for a copy of a sensible booklet on Packing.

#### ARMSTRONG'S No. 0 THREADING MACHINE

Can be attached to bench or post. Designed for threading the smaller sizes of pipe, iron or brass, also bolts. Has two speeds, one for pipe  $\frac{1}{2}$  to 1 inch; the other for pipe  $\frac{1}{4}$  to 2 inches, inclusive. Uses the regular Armstrong adjustable dies. Other attractive features. Send for particulars. **The Armstrong Mfg. Co.,** 139 Centre Street, New York. Bridgeport, Conn.

#### The Perfection of Pipe Threading

is admitted to be reached when our **No. 9 PIPE THREADING MACHINE** is used. As a hand machine it is the only one known that will cut and thread an 8 inch pipe with ease and satisfaction. One valuable feature is, that it has no arbitrary lead screw for determining style or pitch of thread to be cut. Send for Catalogue.

**THE MERRELL MFG. CO.** 501 Curtiss St., Toledo, Ohio.

#### The Pratt & Whitney Co.

Have in stock Machines of their own make that have been used, all in good order, which they offer at attractive prices. Send for particulars.

#### HARTFORD, CONN.

NEW YORK: Cor. Liberty and Greenwich Sts. BOSTON: 281 Franklin St. BUFFALO: Cor. Seneca and Wells Sts. CHICAGO: 42 and 44 South Clinton St.

#### "ON THE LEVEL."

You see in an instant just "where" your work is out by using the "Which Way" Pocket Level. Size of a silver dollar,  $\frac{3}{4}$  inch thick, neatly nickeled. Sample 70 cents. *Write for catalogue.* **E. G. SMITH, Columbia, Pa., U. S. A.**

On Receipt of Ten Cents in Stamps (practically 25% of retail price) we will send you one of our **1-2 INCH AUGER BITS**

A fine cutting tool, perfect clearance, especially good in hard wood and for end boring. Send for Cir. S. A., free. **THE FORD BIT CO., HOLYOKE, MASS.**

#### DO USE GRINDSTONES?

If so, we can supply you. All sizes mounted and unmounted, always kept in stock. Remember, we make a specialty of selecting stones for all special purposes. *Write for catalogue.* **THE CLEVELAND STONE CO.** 2d Floor, Wilshire, Cleveland, O.

#### NICKEL AND Electro-Plating

Apparatus and Material.

**THE** Hanson & Van Winkle Co.,

Newark, N. J.

136 Liberty St., N. Y.

30 & 32 S. Canal St. Chicago.

#### SCRIBER.

Points nicely tempered. Knurled sleeve nickel. Length, with short point, 9 in.; with long point, 12 in. Price 45c. *Write for Catalogue of Fine Tools free.*

**L. E. STARRETT CO.** Box 13, Athol, U. S. A.

ESTABLISHED 1850.

#### THE DEFIANCE MACHINE WORKS

MANUFACTURERS OF SPECIAL WOOD WORKING MACHINERY FOR HUB, SPOKE, WHEEL, BEND, ING, WAGON, CARRIAGE, SHAFT, POLE, NECK, YOKE, SINGLE TREE, HANDLE & BARREL-HOOP FACTORIES.

## The Youth's Companion is read by Every Member of the Family.

A FEW OF THE ATTRACTIONS OF THE MAY ISSUES ARE GIVEN BELOW:

For May 4th.  
**Mrs. Stowe as a Mother,**  
By SUSAN MUNROE STOWE.

For May 18th.  
**An Arctic Hurricane,**  
By LIEUT. PEARY.

For May 11th.  
**Memories of Some Famous Authors,**  
By JUSTIN MCCARTHY.

For May 25th.  
**The Parshley Celebration,**  
By SARAH ORNE JEWETT.

The Old Minister's Girl, a 4-chapter serial, by C. A. Stephens, will also run through the month.

Subscription Price \$1.75 a year. Sample Copies and Announcements of 1899 Volume sent on application.

The Youth's Companion, Boston, Mass.

#### WEBSTER 2 1/2 actual horse power GAS ENGINE

for \$150, less 10% discount for cash. Built on interchangeable plan. Built of best material. Made in lots of 100 therefore we can make the price. Boxed for shipment, weight 800 pounds. Made for Gas or Gasoline. Also Horizontal Engines, 4 to 30 horse power. *Write for Special Catalogue.*

**WEBSTER MFG. CO.,** 1074 West 15th St., CHICAGO Eastern Branch, 38-D Dey Street, New York City.

#### PIERCE REVERSIBLE Speed Propellers

ALL BRONZE 13 TO 24 IN.

Send for circulars and prices.

**PIERCE ENGINE CO.,** 17 N. 17TH STREET, RACINE, WIS.

#### "REEVES" Variable Speed Counter Shaft

Powerful, Responsive, Durable and Efficient. for securing any speed without change of belt or loss of time. Specially adapted for all kinds of experimental machinery, Printing Presses, Motor Carriages, Ironworking Tools, Woodworking Machinery, or any and all machines requiring a change of speed or feed. *Send for handsomely illustrated Catalogue "S. A." free.*

**REEVES PULLEY CO.,** Columbus, Ind., U. S. A.

#### THE EUREKA CLIP

The most useful article ever invented for the purpose. Indispensable to Lawyers, Editors, Students, Bankers, Insurance Companies and business men generally. Book marker and paper clip. Does not mutilate the paper. Can be used repeatedly. In boxes of 100 for 25c. To be had of all booksellers, stationers and notion dealers, or by mail on receipt of price. Sample card, by mail, free. Manufactured by Consolidated Safety Pin Co., Box 121, Bloomfield, N. J.

#### For the Best Ruling Machines,

Hand and Power, with or without the

**BURROWS IDEAL AUTOMATIC STRIKER**

and LAPPER,

**IDEAL BEAM STANDARDS**

**IDEAL INK FOUNTAINS,**

and **IDEAL CRANKS,** apply to **E. J. PIPEL, Manufacturer, Springfield, Mass.**

#### Burst Water Pipes a Thing of the Past

You can now make all water pipes as secure from bursting in winter as in summer. This pneumatic system is the only one which successfully prevents the annoying and costly bursting of water pipes. It has solved a great economic problem. Highly endorsed by Architects, Engineers and Municipal Officials. No new house should be completed without this system, and all house owners should avail themselves of this "ounce of prevention" in season.

*Send for Illustrated Booklet, giving full explanation and discount.*

**THE PNEUMATIC DOME MANUFACTURING COMPANY,** 502 E Street, Northwest, Washington, D. C.

#### NO BLACK SMOKE

at Exhaust Pipe, Perfect Combustion, Highest Efficiency, Greatest Economy.

**Olds Mixer** is found only on

**Olds Gasoline Engines.**

New catalogue just out.

**Olds Gasoline Engine Works, Box 418, Lansing, Mich.**

#### The "Wolverine" Three Cylinder Gasoline Marine Engine.

The only reversing and self starting gasoline engine on the market. *Lightest engine for the power built.* Practically no vibration. Absolutely safe. Single, double, and triple marine and stationary motors from  $\frac{3}{4}$  to 30 H. P. *Write for catalogue.*

**WOLVERINE MOTOR WORKS,** Grand Rapids, Mich.

#### IGNITION OF GAS OR GASOLINE ENGINES

solved by the use of our New Type "S" Dynamo. Weight 47 lbs., speed 1400, height 10 in. Type "S" is for a small generator to take the place of Primary or Storage Batteries for igniting gas or gasoline engines. *Send 2c. stamp for catalogue.* **ELBRIDGE ELECTRICAL MFG. CO., Elbridge, N. Y., U. S. A.**

#### Hold Your Scarf

with the Improved Washburne Patent Scarf Fastener. Useful also for fastening papers or any articles. 10 cents each, by mail. *Hose Supporters that do not bind the leg nor injure the fabric. By mail, 20 cents a pair. Illustrated Catalogue of these and other novelties free.*

**AMERICAN RING CO.,** Box P, Waterbury, Conn.

**ELGIN WATCHES**

**Time's Pulse**

is recorded truthfully and minutely by that marvel of mechanical skill—an

**Elgin Ruby Jeweled Watch.**

Since Elgin began to be a third of a hundred years ago—nearly eight million of these complete, truthful time tellers have done faithful duty, more than any other factory has produced in the same period. **The World's Standard.**

Sold by Jewelers Everywhere.

## McCabe's Pat. Double Spindle Lathe

**TWO LATHES IN ONE.**

One a 26-inch swing for the common run of work, and the other a powerful triple-gear 44-in. swing for heavy work. A substantial, carefully designed and well built tool. Costs but little more than an ordinary lathe.

**J. J. McCABE, 14 DEY STREET, NEW YORK.**

## Buy Telephones

THAT ARE GOOD—NOT "CHEAP THINGS." The difference in cost is little. We guarantee our apparatus and guarantee our customers against loss by patent suits. Our guarantee and instruments are both good.

**WESTERN TELEPHONE CONSTRUCTION CO.**  
250-254 South Clinton St., Chicago.  
Largest Manufacturers of Telephones exclusively in the United States.

**"American-Hunnings" TELEPHONES.**

Transmitters, M. eto Bells and Telephone Switchboards. Over 200,000 of our telephones in successful operation. Used by War and Navy Departments. In ordering state length of line, whether single line or metallic circuit and number of telephones to be used on one line. Send for catalogue "S. A."

**AMERICAN ELECTRIC TELEPHONE CO.,**  
173 South Canal St., Chicago, Ill.

**GREAT OPPORTUNITY**

**MORFET ROLLING MILL PLANT FOR SALE.**—Owing to the death of James Morfett, his Rolling Mill Plant will be sold by order of the Essex County Orphan's Court at public auction on Tuesday, May 9, 1899, at 2 o'clock P. M., on the premises at Glen Ridge, N. J. Steam and water power. Full equipment for casting and rolling brass, copper, gold, silver, etc. Good condition, ready to start. On D. L. & W. R. R., one-half hour from New York; switch to mill. Must be sold. Will go very cheap. Easy terms. Chance of a life time. Apply to J. A. HERCHER, Attorney of Executor, Prudential Building, Newark, New Jersey.

## MAGAZINE PLATE HOLDERS

CAN BE FITTED TO ANY CAMERA. PATENTED. 20 STYLES OF "GRAPHIC" CAMERAS. 4x5 1/2 10" 5x7 12" SPECIAL CAMERAS MADE TO ORDER.

**THE FOLMER & SCHWING MFG CO.**  
271 CANAL ST., NEW YORK.

## LIQUID AIR

AND  
**The Liquefaction of Gases.**

By Prof. T. O'CONOR SLOANE.

365 pages. 8vo. Containing many illustrations, with portraits of Faraday, Pictet, Cailletet, Dewar and Tripler. Bound in Buckram.

**PRICE \$2.50.**

IN offering this book to the public, the publishers feel that, as it is the only work on the subject, they are helping in forwarding the higher scientific education of the people. The world at large is now interested in natural science, and since its earliest developments nothing with the possible exception of Electricity, has excited such widespread attention as Liquid Air.

This book contains the full theory of the subject. It gives the entire history of the liquefaction of gases, from the earliest times to the present, and also contains a description of all the experiments that have excited the wonder of audiences all over the country. It shows how liquid air, like water, is carried hundreds of miles and is handled in open buckets; also the formation of frost on bulbs—Filtering liquid air—Dewar's bulbs—Liquid air in water—Tin made brittle as glass—India rubber made brittle—Descending cloud of vapor—A tumbler made of frozen whisky—Alcohol solidified—Mercury frozen—Frozen mercury hammer—Liquid air as ammunition—Liquid air as basis of an explosive—Burning electric light carbon in liquid air—Burning steel pen in liquid air—Carbon dioxide solidified—Atmospheric air liquefied—Magnetism of oxygen.

It tells what may be expected from liquid air in the near future. It gives the history and biography of the subject from earliest times.

This is not only a work of scientific interest and authority, but is intended for the general reader, being written in a popular style, and will be easily understood by everyone. Send for full Table of Contents.

**Hammer Dry Plates.**

Absolutely Uniform and Clean. For the Hand Camera and Professional.

**NO FRILLING IN HOT WEATHER.**

Sold by all dealers. Send for Hammer's Little Book.

**HAMMER DRY PLATE CO., ST. LOUIS, MO.**

**Ralston Still.**

A delight to every woman's heart. Supplies the table with an abundance of Sparkling, Pure Water, sterilized and aerated by a new process, and absolutely free from all germs of disease, poisonous gases and old acid matter. Purifies the most infected water without trouble or expense by utilizing the waste heat of the kitchen range. No larger than a tea-kettle, and as easily cleaned. New 1890 Model with all latest improvements, plated finish, etc., only \$10.00. Guaranteed the best in the world—best in workmanship and construction, easiest to operate, and with the largest capacity per hour. If found otherwise, may be returned at our expense.

Officially Adopted by the Ralston Health Club. Highest Award and Gold Medal at Omaha Exposition. Extensively Used by the U. S. Government. Over 1,000 Testimonials from Satisfied Purchasers.

Send for Booklet "B," list of dealers and other interesting printed matter. Manufactured only by

A printed copy of the specification and drawing of any patent in the foregoing list, or any patent in print issued since 1865, will be furnished from this office for 10 cents. In ordering please state the name and number of the patent desired, and remit to Munn & Co., 361 Broadway, New York. Special rates will be given where a large number of copies are desired at one time.

Canadian patents may now be obtained by the inventors for any of the inventions named in the foregoing list, provided they are simple, at a cost of \$40 each. If complicated the cost will be a little more. For full instructions address Munn & Co., 361 Broadway, New York. Other foreign patents may also be obtained.

## Trade Suggestions FROM United States Consuls.

The SCIENTIFIC AMERICAN SUPPLEMENT publishes each week a page devoted to suggestions made by United States Consuls in all parts of the world, regarding almost every branch of trade. There is also published weekly a complete "Index to Advance Sheets of Consular Reports," whether they are published in the SUPPLEMENT or not. This feature exists in no other paper. There is no question that the splendid work which is being done by our Consuls to further American trade is being crowned with success and it is to the advantage of all manufacturers and large dealers to obtain these reports as quickly as possible.

Subscription price of the SCIENTIFIC AMERICAN SUPPLEMENT is \$5 per annum. Single numbers, 10c. each.

**\$4.95 buys a Man's All Wool Suit**

of Rich Blue Serge, warranted Best Fast Color, Guaranteed equal in quality, style and looks to others' best \$10 Suits.

**THE MATERIAL** is Malt's Best All-wool Serge, famous everywhere for its perfect weave, soft feel and rich deep blue color. The cloth was woven by America's best woolen mill, from the picked wool yarn, dyed by a new process and cannot fade. It is medium weight and suitable for year around wear; is firmly woven, will positively not fade or wear shabby, and will wear like leather. It is exactly the same cloth used in the serge suits that retail everywhere for \$10.00. Remember we will sell only 1800 suits at \$4.95—after they are gone the price will be \$6.00. Don't delay, but order today before they are all gone.

**EXPERT SUIT TAILORS** will make the suit in the latest sack style to fit your height, weight, chest, waist and length. We'll send the suit by express C. O. D. and allow you to examine and try it on before you pay one cent. If found exactly as represented, the greatest bargain on earth and worth double our price, then pay our agent \$4.95 and expressage and take the suit. Pay nothing if unsatisfactory. For advertising purposes. After they are gone the price goes back to \$6.00—no more at \$4.95 after 1800 are sold. Order quick or they'll be gone. Don't miss this wonder chance.

**WE MAKE other suits from \$5.95 to \$13.95. Write for free samples of cloth.**
