Burst Water Pipes a Ching of the Past

You can now make all water pipes as secure from bursting in winter as in summer. This pneumatic system is the only one which successfully prevents the annoying and costly bursting of water pipes. It has solved a great economic problem. Highly endorsed by Architects, Engineers and Municipal Officials. No new house should be completed without this system, and all house owners should avail themselves of this "ounce of prevention" in season.

BERESFORD'S

The BREAK-UP of

WILL LORD BERESFORD'S famous Mission to China determine the commercial future of that country? The book gives his opinion of the commercial outlook, based upon observations and interviews with the great Chinese Viceroys and foreign merchants in China. He decides in favor of the policy of the "Open Door." He decides against "Spheres of Influence." He is clear, concise, and convincing. He presents in one volume the political and commercial situation in the great Empire whose very existence is hanging in the balance from hour to hour. It is a book for the economist, for the American business man, and for all those who are interested in the commerce of the world.
