ative and as a beautifier. To be a good preservative, it must be durable; as a beautifier, it must have a fine gloss and smooth finish.

DIXON'S SILICA-CRAPHITE PAINT

possesses both qualities in a remarkable degree, and has many more marks of excellence as well. It not only lasts longer than any other paint, but covers two or three times as much surface.

"Equally good on metal or wood." It has no bad odor and is strictly non-poisonous. It never fades.
