Burst Water Pipes a Thing of the Past

You can now make all water pipes as secure from bursting in winter as in summer. This pneumatic system is the only one which successfully prevents the annoying and costly bursting of water pipes. It has solved a great economic problem. Highest endorsed Architects, Engineers and Municipal Officials. No new house should be completed without this system, and all house owners should avail themselves of this "ounce of prevention" in season.

Send for Illustrated Booklet, giving full explanation.
