## HYOMEI ANTISEPTIC SKIN SOAP

No Other Soap Manufactured without a Base of Fats, Grease, Oil and Alkali.

A delightful and surprising experience awaits any one who uses Hyomei Skin Soap. It is so entirely different from soaps made by the old methods, that if it were not for the beautiful, creamy lather, one would doubt that they were using soap of any description. There is no soapy smell which always follows the use of the average toilet articles; no overpowering perfume such as is used in the higher grades and which notifies each passerby that you have just taken a bath, or have some skin disease which you are trying to cure with a medicinal soap. Hyomei Skin Soap is Nature's own skin purifier. No artificial means or ingredients are used. No smarting of the eyes or tender skin results from its use. Instead, the skin is thoroughly cleansed and invigorated; all disease germs are destroyed; every pore is opened and all obstructions to perfect circulation removed. The skin soon becomes soft, smooth and free from blemish. In fact, skin diseases of any kind cannot exist where the New Soap is used daily. Send for a free sample cake of Hyomei Soap and no other will ever again be found among your toilet requisites. Sold by all druggists.
