Choice Holiday Books

EXPERIMENTAL SCIENCE.

By GEORGE M. HOPKINS

By GEOR.
THIS is a book full of interest and value 1 or Teachers, Students, and others who desire to impart or obtain a practical knowledge of Physics. I his splendid work gives young and old something worthy of thought. It has intenced thous ands of men in the choice of a career. It will give anyone, young or old, inone, young or old, in-formation that will enable him to compre-hend the great im-provements of the day. It furnishes sugges-tions for hours of instructive recreation

20th edition. Revised and enlarged. 914 pages. 820 lus Elegantly bound in cloth. Price, by mail, postpaid, \$4.00; Half Morocco, \$5.00.

Liquid Air and the Liquefaction of Gases.

This book contains the full theory of the subject. It gives the entire history of the Liquefaction of Gases from the earliest time to the present, and contains an illustrated description of all the experiments that have excited the wonder of audiences all over the country. It is a logical explanation and application of the principles of liquefaction, a history of the theory, discovery and manufactur of liquid air. A book that renders simple one of the most perplexing chemical problems of the century. Startling developments illustrated by actual experiments. It is not only a work of scientific interest and authority, but is intended for the general reader, being written in a popular style-easily understood by everyone.

By Prof. T. O'CONOR SLOANE. 365 Pages. With many Illustrations, Price \$2.50.

A Complete Electrical Library.

By PROF. T. O'CONOR SLOANE.

An inexpensive library of the best books on Electricity. Put up in a neat folding box, as shown in cut. For the student the amateur, the workshop, the electrical engineer, schools and colleges. Comprising five books, as follows:

Arithmetic of Electricity 138 pages, \$1.00 Electric Toy Making, 140 pages, \$1.00

How to Become a Successful Electrician, 189 pages, \$1,00
Standard Electrical Dictionary, 682 pages, \$3,09

Electricity Simplified, 158 pages, \$1.00 and over 450 illustrations. A valuable and indispensable addition to every library. Our Great Special Offer.—We will send prepaid the above fve volumes, handsomely bound in blue cloth, with silver lettering, and inclosed in a neat folding box, as shown in the illustration, at the Special Reduced Price of \$5.00 for the complete set. The regular price of the five volumes is \$7.00.

Edited by ALBERT A. HOPKINS.

12,500 Receipts. 708 Pages.

This splendid work contains a careful compilation of the most useful Receipts and Replies given in the Notes and Queries of correspondenst as published in the Scientific American Page 12,500 and 12,500 lished in the SCI-ENTIFIC AMERICAN during the past fifty years; together with many valuable and important ad ditions. Over 12.000 selected Receipts are here collected; nearly every branch of theuseful arts be-ing represented. It is by far the most comprehen-sive volume of the kind ever placed before in half mo-

Price \$5 in cloth; \$6 in sheep; \$6.50 in half moreco; postpaid.

Gas, Gasoline, and Oil Vapor Engines.

The Only American Book on the Subject.

eryone interested in this new and popular motive power and its adaptation to the increasing demand for a cheap and easily managed motor requiring no licensed engineer. The book treats of the theory and practice of Gas. Gasoline, and Oil En-gines, as designed and mangmes, as designed and man-ufactured in the United States. It also contains chapters on Horseless Ve-hicles, Electric Lighting, Marine Propulsion, etc.

By GARDNER D. HISCOX, M.E. 270 Handsome Engrav ings. Large Octavo, 365 Pages. Price \$2.50. Full descriptive circulars of above books will be mailed free upon application.
