BLISS ELECTRICAL SCHOOL,
 711 14th Street, Washington, D. C.
 Practical Electrical Engineering thoroughly and
 exclusively taught. Course opens Sept. 27. Catalogue on
 application to L. B. BLISS, Principal.

Worcester Polytechnic Institute,
 WORCESTER, MASS.
 Courses of study in Mechanical, Civil and Electrical
 Engineering and Chemistry. 195-page catalogue, show-
 ing appointments secured by graduates, mailed free. Ex-
 penses low. Thirty-second year. J. K. Marshall, Registrar.

JOHNS HYDRAULIC ENGINE
 develops all the power which the
 weight and momentum of water af-
 ford—greater than the ordinary wa-
 ter motor or turbine wheel. It uti-
 lizes the stored pressure of the air-
 and it is a remarkably effective ma-
 chine. Uses less water and devel-
 ops greater power than any other
 engine. Occupies but little space
 and is easy to set up. Requires lit-
 tle care. Is simple and durable.
 Built in all sizes from 1/4 h. p. up to
 any h. p. desired.
 Free descriptive illustrated catalogue.
ELMIRA MFG. CO.,
 159 Greenwich Street,
 NEW YORK.

THE RIVETT SLOTTOR
 as an attach- ment to our 8-inch Precision
 Lathe is exceedingly useful in
 cases where it is necessary to put a
 key-seat in as small a hole as
 a cutter may be made to stand
 the work. From 40 seconds to
 2 minutes suffices to put a key-
 seat in a hole 1/4 in. diameter
 and 1/4 in. long—it depends on
 the metal. This is acknowl-
 edged to be a most valuable tool, indis-
 pensable in all up-to-date shops throughout the country.
FANEUIL WATCH TOOL CO., Brighton, Boston, Mass.

TUBULAR
DRIVING LAMP.
 IT is the only perfect one.
 IT will not blow or jar out.
 IT gives a clear, white light.
 IT is like an engine head-
 light.
 IT throws the light straight
 ahead from 30 to 50 ft.
 IT burns kerosene.

A printed copy of the specification and drawing of any patent in the foregoing list, or any patent in print issued since 1857, will be furnished from this office for 10 cents. In ordering please state the name and number of the patent desired, and remit to Munn & Co., 361 Broadway, New York. Special rates will be given where a large number of copies are desired at one time.

Canadian patents may now be obtained by the inventors for any of the inventions named in the foregoing list, provided they are simple, at a cost of \$40 each. If complicated the cost will be a little more. For full instructions address Munn & Co., 361 Broadway, New York. Other foreign patents may also be obtained.

Bicyclers Buy The Best.
 Ever hear of the "Light That Failed"? Most wheelmen have experienced this with their lamps before they began to use the "EVERLIT" BICYCLE LAMP. No disappointment, no light failing them. The "Everlit" is reliable in every way. It is all brass except hanger, is 5 1/2 inches high, weighs 13 ounces. It is easy to clean, easy to regulate. The flame can be regulated from either side of lamp. Embossed font packed with cotton. Burns kerosene oil. This lamp always gives a clear, steady, penetrating light. Fine nickel finish.
 Illustrated Catalogue "S. A." free for asking.

BEST BICYCLE BRAKE
 All cyclists, whatever wheel they ride, should have attached the Latest and Best Automatic Coaster and Brake.
THE TREBERT BRAKE
 is composed of a friction disk secured to the hub of rear wheel, a clutch on the disk and a clutch on the rear sprocket wheel. Both clutches have inclined surfaces upon which balls roll. When the bike chain is pulled forward, the balls also move forward and ride up their incline. Back pressure to pedals produces reverse motion. Free booklet of particulars. Made only by the
Trebert Automatic Coaster and Brake Co., SYRACUSE, N. Y.
