## A Way to Solve a Vexing Problem.

That ever difficult question, "Where to go for a vacation?" again confronts us, and a most perplexing problem it is. Northern New England, without a doubt, offers a greater variety of vacation places, including lake, mountain, and seashore resorts, than any other section of the country.

The hotels of this region have no equal. The methods for amusement and recreation include everything that is desired, and the easiness by which the tourist can reach his abiding place is a feature which alone speaks for itself.

A perusal of the "New Summer Resort and Tour Book" just issued by the Boston & Maine Railroad will help amazingly in selecting your summer outing place. The book has a list of a thousand summer hotels and boarding houses, together with maps, routes, rates and stage connections, and is sent to any address, free, upon application to the General Passenger Department of the Boston & Maine Railroad, Boston. Be sure you get it before you talk vacation.

## THE "MINISTER"

is the latest invention, which is already registered in all the principal countries of the world to be patented and which, considering its immense importance, will soon be in general use throughout the world. This invention is in fact a complete office, composed of an arm-chair and a writing-table in a small hand-bag; (the office is even provided with acetylene gas light) and is therefore of very great importance for the army, navy, travellers, tourists, etc.

The apparatus is now shown at the Universal Exhibition in Paris, where it is the object of the greatest admiration.

Manufacturers or other gentlemen who would like to acquire the patent or the permission to manufacture the said invention are requested to apply to the Central Office of M. le Chevalier Eugene de Freystadtler, Museumutcza 3, Budapest (Hungary).
