### Alois P. Swoboda

Teaches by mail, with perfect success, his original and scientific method of Physiological Exercise, without any apparatus whatever, and requiring but a few minutes' time in your own room just before retiring. By this condensed system more exercise can be obtained in ten minutes than by any other in two hours, and it is the only one which does not overtax the heart.

It is the only natural, easy and speedy method for obtaining perfect health, physical development, and elasticity of mind and body. Perfect Health means an absolute freedom from those ailments which a well-informed mind knows are directly or indirectly due to a lack of properly arranged exercise.

Pupils are of both sexes, ranging in age from fifteen to eighty-six, and all recommend the system. Since no two people are in the same physical condition individual instructions are given in each case.

Write at once for full information and Booklet, containing indorsements from many of America's leading citizens, to
