

The Grand Prix,

(The Diploma of Honor—Highest Possible Award.)

WAS WON BY

The Smith Premier Typewriter,

AT THE

Paris Exposition.

This award, made by an International Jury of twenty-five members, was, at a rating on points, **HIGHER THAN ANY OF THE OTHER TWENTY TYPEWRITERS IN COMPETITION**, and quoting from the jury's report, was given "for general superiority of construction and efficiency, at the highest rating."

ELECTRO MOTOR. SIMPLE. HOW TO MAKE.

By G. M. Hopkins. Description of a small electric motor devised and constructed with a view to assisting amateurs to make a motor which might be driven with advantage by a current derived from a battery, and which would have sufficient power to operate a foot lathe or any machine requiring not over one man power. With 11 figures. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 641. Price 10 cents. To be had at this office and from all newsdealers.

A printed copy of the specification and drawing of any patent in the foregoing list, or any patent in print issued since 1865, will be furnished from this office for 10 cents. In ordering please state the name and number of the patent desired, and remit to Munn & Co., 361 Broadway, New York. Special rates will be given where a large number of copies are desired at one time.

Canadian patents may now be obtained by the inventors for any of the inventions named in the foregoing list, provided they are simple, at a cost of \$40 each. If complicated the cost will be a little more. For full instructions address Munn & Co., 361 Broadway, New York. Other foreign patents may also be obtained.

The Brunswick

Have a good Cigar. It's just as easy to have a good smoke as a poor one. They cost you the same. The Brunswick is good. You will like it and buy it again. Look for Arrow Head on Every Cigar.

THIS great work has now been on the market for nearly six years, and the demand for it has been so great that twelve editions have been called for.

The work may be regarded as the product of the studies and practical experience of the ablest chemists and workers in all parts of the world; the information given being of the highest value, arranged and condensed in concise form, convenient for ready use. Almost every inquiry that can be thought of relative to formulae used in the various manufacturing industries, will here be found answered. Those who are engaged in almost any branch of industry will find in this book much that is of practical value in their respective callings. Those who are in search of independent business or employment, relating to the home manufacture of salable articles, will find in it hundreds of most excellent suggestions.
