

Zon-o-phone

SUBSTITUTED FOR OUR GRAM-O-PHONE

SO MUCH SUPERIOR that we have abandoned our Gram-o-phone, including its name. The Zon-o-phone is the only legitimate disc (flat record) talking machine: reinforced by the allied patents of American Graphophone Co., Columbia Phonograph Co., National Gram-o-phone Corporation, Universal Talking Machine Co.

WARNING.—Parties who have recently attempted to trade in the Gram-o-phone, and reap the advantage of our prestige, have been enjoined. All others are warned as to the purchase and sale of machines bearing that name.

The Zon-o-phone records, by a newly discovered process, are incomparably superior to our Gram-o-phone records. Zon-o-phones and records for sale everywhere. Send for Catalogue.

NATIONAL GRAM-O-PHONE CORPORATION, 874 Broadway, New York.

BRANCHES: CHICAGO, 161 State. BOSTON, 178 Tremont. PHILA., 13 North 9th. SAN FRANCISCO, Sherman Clay & Co.

ELECTRICITY

If so we can supply you. All sizes mounted and unmounted, always kept in stock. Remember, we make a specialty of selecting stones for all special purposes. Ask for catalogue.

The CLEVELAND STONE CO. 2d Floor, Wilshire, Cleveland, O.

There are Two classes

of farmers in the country—those who read

HOARD'S DAIRYMAN and those who don't.

Those who DO read HOARD'S DAIRYMAN are the prosperous, intelligent, energetic kind. They wouldn't appreciate it if they were the other kind.

They buy everything that any other farmer does—because they are Farmers first and dairymen afterwards.

That's why HOARD'S DAIRYMAN pays advertisers so extremely well.

HOARD'S DAIRYMAN, Ft. Atkinson, Wis.

"Hawkins' New 1900 Catechism" OF THE STEAM ENGINE.

Gas Engine

Construction

By HENRY V. A. PARSELL, Jr., Mem. A. I. Elec. Eng., and ARTHUR J. WEED, M. E.

PROFUSELY ILLUSTRATED.

Price, \$2.50, postpaid.

This book treats of the subject more from the standpoint of practice than that of theory. The principles of operation of Gas Engines are clearly and simply described, and then the actual construction of a half-horse power engine is taken up.

First come directions for making the patterns; this is followed by all the details of the mechanical operations of finishing up and fitting the castings. It is profusely illustrated with beautiful engravings of the actual work in progress, showing the modes of chucking, turning, boring and finishing the parts in the lathe, and also plainly showing the lining up and erection of the engine.

Dimensioned working drawings give clearly the sizes and forms of the various details.

The entire engine, with the exception of the flywheels, is designed to be made on a simple eight-inch lathe, with slide rests.

The book closes with a chapter on American practice in Gas Engine design and gives simple rules so that any one can figure out the dimensions of similar engines of other powers.

Every illustration in this book is new and original, having been made expressly for this work. Large 8vo. 296 pages.

Send for Circular of Contents.

The Independent

\$2.00 A YEAR 10 CENTS A COPY

Is a weekly magazine for thoughtful people. It prints every issue 60 pages of reading matter, with occasional illustrations, divided into four main departments:

THE SURVEY OF THE WORLD.—A luminous and strictly unbiased account of the important events of the week told in brief paragraphs.

EDITORIALS.—THE INDEPENDENT'S interpretation of these events, discussed positively and fearlessly in every field of thought—Sociology, Religion, Art, Literature, Science, Ethics, Politics, etc.

SIGNED ARTICLES.—By the leading authorities in the world. THE INDEPENDENT "prints more articles from the ablest writers than any other paper in the United States."

BOOK REVIEWS. All the important books published in the English language reviewed by experts who cannot be deceived by what is faulty or trivial.

In these four departments EVERYTHING of importance in the whole world is treated.
