IF YOU HAVE A SHOTGUN and use it often, you know the barrel "leads" the friction leaves a lead deposit which causes "pits" and means expense. You can't stop the deposit, but you can re-

move it with the **TOMLINSON CLEANER.** It removes easily and quickly all lead, rust or other foreign matter. It won't injure the barrel, as the brass wire gauze is softer than the steel, and it will last a lifetime, as the real wearing part can be replaced for 10c. An extra pair with each lot. In gauges 8 to 20. Fit any rod. All dealers. Price \$1. Booklet free. "Used everywhere in the civilized world."
