## \$1,000 A YEAR FOR LIFE.

SIX PER CENT. GUARANTEED.

A thorough investigation will convince you that \$12.50 per month invested for six years in the Monteuma Plantation will give you an annual income of \$1,000 for life. It will convince you that the enterprise is not a speculation, but a solid, conservative investment. The plantation, 8,000 acres, is being planted to rubber and sugar. The Company's Financial Strength—The Mexican Coffee and Rubber Growers' Association manages the plantation for 25 years. The mercantile agencies say that it has a capital of \$3,000,000, assets \$4,000,000, and owns steamboats. Each Member Only One Vote—Impossible to Freeze Out—The plan is the perfection of co-operation. Chicago Title and Trust Co., Trustees. This well-known institution holds the title to the land and acts as a depository for the purchasers' money. Points on Profits—Sir Thomas Lipton says: "For sure, large and permanent returns, nothing equals a well-managed tropical plantation." Russell Sage says a rubber plantation is better than a bank. Write for literature, mentioning this paper. MONTEUMA PLANTATION, 1107 Ashland Block, Chicago.

## I Teach by Mail

with Perfect Success  
**PHYSIOLOGICAL EXERCISE**  
without any apparatus whatever, and requiring but a few minutes' time in your own room just before retiring. By this condensed system more exercise can be obtained in ten minutes than by any other in two hours, and it is the only one which does not overtax the heart.  
It is the only natural, easy and speedy method for obtaining perfect health, physical development and elasticity of mind and body.  
If you will follow my instructions for a few weeks, I will promise you such a superb muscular development and such a degree of vigorous health as to forever convince you that intelligent direction of muscular efforts just as essential to success in life as intelligent mental effort.  
Pupils are of both sexes ranging in age from fifteen to eighty-six, and all recommend the system. Since no two people are in the same physical condition, individual instructions are given in each case.

## The Angle Lamp

"The Light that Never Fails"

Is beyond comparison with any other method of illumination. It combines the three essential features of good light—great brilliancy, ease of operation and great economy. It is radically different from all other lamps and it is rapidly replacing gas, electricity and other systems. Unlike gasoline or acetylene it is absolutely safe and never smokes or smells under any circumstances. It costs but about eight cents per month to burn and is operated as easily as gas. Thousands are in use in homes all over the country and is ideal in every respect. Our catalogue M.M. shows all styles from \$1.50 up and is sent on request. It will pay you to send for it and learn more about this wonderful lamp.

**PATENT RIGHTS FOR SALE.**

I have invented, patented and own a device to supersede all previous collars for machinery shafting on account of its superiority, safety, simplicity and security. The collar has no set screw which often projects and causes accidents, no counter-screw to weaken the collar. The "Fleming" Collar is simple in construction—made in four pieces to clamp around the shaft and can be put on or taken off without removing other parts of the machinery. It thus saves ten times its cost in time and labor. It can be manufactured as cheaply as any collar now on the market. It is a blending of safety, simplicity and security, and only needs to be introduced to become universally used. It cannot slip at all and has a grip on the shafting the full surface of its circumference. I want to sell the patent rights.
